2022 K-Food Business Week

A business matching consultation event for high quality products, including Korean agricultural and fishery products and processed foods

Hello, everyone.

Dalgona, instant ramen, and choco pies, classics of the Korean food industry, have been in the global spotlight recently, due in part to Netflix's content. As a result, Korea is rapidly growing in a new paradigm of the global food industry that focuses on healthy ingredients, flavor, and beautiful colors. This consultation event has been prepared to strengthen unique Korean food companies by providing them with an opportunity to supply marketable products at reasonable prices, as well as to strengthen your ties with competent partners.

If you register for this B2B membership-based event, we would like to provide you with an opportunity to continuously be matched one-on-one with verified food companies, and we would like to ask for your active participation.

※ In addition to the recommended companies, if you visit the KWCE.net website and apply to be matched with additional companies, we will also provide the service.

01

Gagopa Healing Food Co., Ltd.

THE SMILE OF PROMISE FROM THE NATURE
"HEALING N FARM"

Clean your body and mind with eco-friendly natural products
that help you maintain a healthy lifestyle.

Having succeeded a family business, organic wild grass culturing and processing, for 3 generations, we, Gagopa Healing Food Co.,Ltd. manufacture medicinal food materials and teas using the medicinal herbs representing Korea, thus enhancing its brand value. Until today, our company has developed into an eco-friendly agricultural products distribution company, striving to ensure the best quality. As a results, our company received the most reputable certificates from the Korean government including [Rural Convergence Industrial Business Certificate], [Creative Innovation Grand Prize Certificate] and [New Knowledge Certificate]. Having established R&D Center, we research the efficacy of the medicinal wild grass in Gyeongnam on a continuous basis and strive to achieve customer satisfaction based on quality management system which acquired ISO9001 and ISO14001.

HEALING
FARM

Shine muscat collagen jelly

- ☑ The Russian asco parm and osteol products made by a contract - forte
- ☑ The product in the Foley, gamma glutamic acid, vitamin c, elastin, adjunct containing a prisoner of war in getting essential nutrients available.
- ☑ low-molecular-weight the absorption power as fish collagen content.
- ☑ Shine musket jelly as well as domestic products, with as a product that is scarcity in overseas markets as well.

Sweet persimmon jelly

- ☑ Sweet persimmon jelly is a well-being dessert made of 100% Changwon sweet persimmon harvested in autumn. Real fruit that became jelly! The natural taste of sweet persimmons remains the same! It is a safe well-being dessert enjoyed by the whole family, so you can enjoy it with your parents.
- ☑ The chewy sweet persimmons and meat are in it! It contains Changwon sweet persimmons, the main producer of sweet persimmons in Korea, which accounts for 21% of sweet persimmons production.
- ☑ Sweet persimmon with vitamin C! It contains 17 times more vitamin C than apples. Delicious and healthy real fruit jelly.
- ☑ The special texture and taste of sweet persimmons with soft puree jelly are excellent.
- ☑ Storage at room temperature makes it easy to enjoy anytime, anywhere.
- ☑ 130g is not too sweet, so I recommend it as a snack for men and women of all ages.
- ☑ 1SET 130g x 8 pieces has a handle box, so it's great as a gift.

K-food companies

Goundong Co., Ltd.

Goundong Co., Ltd. is directly in charge of producing and distributing fresh blueberries and strawberries, as well as distributing excellent local agricultural products in Sancheong-gun, a clean region in Korea.

BB Berry Farm Blueberries

As a brand name currently used for fresh blueberries, we are solidifying our position as a premium blueberry distributor in both online and offline markets in Korea, including clients such as E-Mart, Lotte Mart, GS Mart, Galleria Department Store, Market Kurly, and Squirrel Market.

We produce with honest mindset of 'Let's grow blueberries that my daughter can eat right away'. As agricultural products certified as pesticide-free, we do not use any herbicides, pesticides, or fungicides. These are clean blueberries grown so clean that you can eat them right away without washing. Sancheong, located at the foot of Mt. Jiri, is the hometown of Donguibogam and is a place where clean medicinal herbs thrive. Because the soil is good, even the same crops grown in Mt. Jiri have different nutrition. In addition, the climate of Sancheong, Mt. Jiri, where the temperature difference between day and night is large, makes blueberries grow large and delicious.

Geumsil Strawberries

Geumsil strawberries are strawberries that are as precious as the golden jade leaf, and they are considered to be high-quality strawberries among strawberry breeds.

Geumsil are strawberries with strong, sweet, juicy, and deep flavor with a mild peach flavor that resembles the strengths of maehyang and seol-hyang.

The Sancheong region nearby Mt. Jiri in Korea is free from pollution and has a large daily temperature difference, so all fruits grow well and taste good. Sancheong strawberries grown in the clean air and clean water at the foot of Mt. Jiri are not only bright in color, but also high in sugar content and full of flesh.

K-food companies

Byeolidang Co., Ltd.

We are continuing the business once supported by the Ministry of Agriculture, Food and Rural Affairs as a mountain blueberry processing business group.

We are working towards sustainable agriculture for farmers in Sancheong-gun, Korea. We are a company that researches and strives so that farmers can eat berries grown right and honest in various ways.

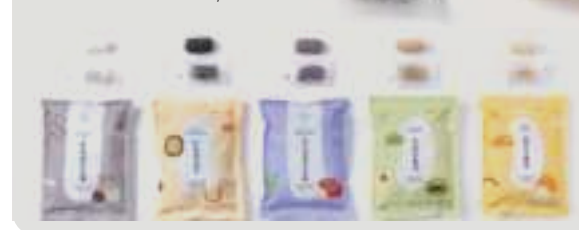

Dried Persimmons

- ✓ Located in Sancheong at the foot of Mt. Jiri in Korea, high-quality persimmons with high sugar content are produced due to the high temperature difference between day and night.
- ✓ Persimmons are rich in vitamin C, and the outside is chewy and soft and the inside is moist, making it perfect as a snack.

Byeolidang Rice Cake (Pouch)

- ✓ 4 types of filled glutinous rice cakes (Cheese ball, sweet pumpkin, red bean paste, ojangi pong, odi bean paste)
- ✓ 100% Korean glutinous rice used
- ✓ ZERO additives
No tapioca powders No colorings No preservatives
- ✓ Manufactured in an HACCP certified facility

Triple berry juice

- ✓ 100% Korean made with triple berry juice made from aronia, mulberry, and kuji mulberry

Daebong Dried Persimmons

- ✓ Sancheong dried persimmons were delivered as a gift to Queen Elizabeth and received great reviews, as well as being included in the Blue House's Lunar New Year gift in 2015.
- ✓ As persimmons are dried by the high temperature difference in Sancheong, the sugar content is significantly higher, and it is produced hygienically by drying in a pollution-free and clean area.
- ✓ Persimmons contain enough Vitamin C and A, tannins, glucose, and lycopene to be called a comprehensive nutritional supplement, so they are excellent for recovering from fatigue and protecting one's eyesight.

Wolhahyangju DIY Set

- ✓ Alcohol DIY kit made with freeze-dried fruits
- ✓ GAP certification to manage hazardous issues and certify compliance
- ✓ Pesticide-free product
- ✓ Sells 100% clean special agricultural products such as strawberries, mulberries, bokbunja mulberries, bisuri (yagwanmun), kuji mulberry fruits, etc. that are grown at the foot of Mt. Jiri in Korea as an additive-free, pure product made with freeze-dried raw materials. A great DIY kit that returns profits to local farmers.
- ✓ Freeze-drying is a method of extracting only moisture while leaving the taste and shape of the raw material intact, and a method of rapidly cooling the material to -40 degrees or less without applying heat to obtain a dried product, so nutrients are not destroyed.

K-food companies

Youngsil Agricultural Co-op 영농조합법인 영실

The Youngsil Agricultural Cooperative Corporation has been working hard to improve the competitiveness and value of Korean agriculture through various businesses so far.

We grow beer barley to produce and sell Sancheong Beer, a Korean barley craft beer.

Sancheong Beer

- ✓ Pilsner, weizen, and dunkel beers were developed using Korean barley in cooperation with Gyeongsang National University. IPA, Sancheong Dry Rice Beer
- ✓ 5 special and luxurious beers
- ✓ A uniquely flavored beer with a strong fruity aroma and bitter taste of hops

<http://youngsil.co.kr/>

K-food companies

Jirisan Mohyanggol Agricultural Corporation

Mohyanggol Farm is doing its best to provide high-quality products to customers at an economical price by eliminating distribution margins, advertising and PR expenses, and reducing unnecessary costs as much as possible.

Honey (chestnut honey, acacia honey, wild flower honey)

- ✓ Honey produced in Mt. Jiri, Korea, which is a clean area with clean water, air, and natural flowers, which are important elements of honey quality.
- ✓ We produce natural honey collected from 100% natural flowers through mobile beekeeping in the traditional way, and we only sell honey with a carbon isotope ratio of -23.5% or less, the most scientific basis for natural honey.

Daebong Semi-dried Persimmon

- ✓ Daebong semi-dried dried persimmons are dried well, so the outer surface is not very moist or torn easily. The texture is chewy like dried persimmons and the inside is fresh like hongsi.
- ✓ Dried with a dry, natural wind at a low temperature between 15°C and 30°C
- ✓ Introduced a new, hygienic drying process by creating a low-temperature dehumidifying room and repeating the process of drying, freezing, aging, thawing, drying and then repeating the process of freezing and thawing.

Honey Stick

- ✓ Honey is delicious, but it is always a large-capacity product, leading to low portability. Honey sticks, on the other hand, have the advantage of convenience.
- ✓ Because they are portable, they can be used as a healthy and natural snack by replenishing one's energy with honey anytime, anywhere, at the office, while hiking, studying, in the car, etc.
- ✓ Easy to sprinkle on yogurt, fruit, bread, sweets, etc.

K-food companies

Jirisan Saeheemang Sanghwang Mushroom

Saeheemang Sanghwang Mushroom Farm in Mt. Jiri has grown only sanghwang mushroom for about 20 years. It is one of the largest in Korea as it has 15 buildings (greenhouses) of about 2,000 pyeong and an annual production of more than 4.5 tons, which makes the largest production facility in South Gyeongsang Province.

- Every year, ingredient inspection is conducted to certify organic agricultural products, and this is an eco-friendly organic sanghwang mushroom with zero residual detected pesticides.
- Organic certification and GAP certification

<http://smartstore.naver.com/saeheemang>

K-food companies

ANARANG Co., Ltd.

We introduce healthy fish-soy sauces (and the tastes of them) from Korea to the whole world and open new ground in the contents of K-food. Now, we will help many people of the world enjoy K-food by making YouTube clips to introduce various kinds of K-food with our product.

Mater Kim Nakyeong's Fish-soy Sauce

- Features** natural and traditional fish-soy sauce without containing artificial coloring, synthetic spices and synthetic preservative
- Taste** very clean and deep taste from anchovies and mussels in the South Sea of Korea, giving such an extra flavor to various kinds of food and being good for your health
- Effects** without coloring, so not changing the color of its ingredient in any kind of food but keeping the flavor of it
- Competitiveness** keeping the freshness by our patented processing process and succeeding in minimizing harmful ingredients to meet international standards

K-food companies

Wow Seafood Co., Ltd.

WOW (WORLD ONE TOP WOW!FOOD)

Wow Food is 'Amazing taste! amazing price! Amazing quality!'

Everything is amazing wow food!' with the slogan

W(World)O(One Top)W(Wow! Food) 'World's Top Wow Food!' in the sense of

In order to become the best in the world beyond the domestic market, we have built equipment and systems with various food industry experts.

It is a brand that develops and researches.

Wow Seafood Co., Ltd. is doing its best to supply fresh and safe seafood based on "trust" with customers.

Judging that there is a limit to the distribution of raw materials alone, We are continuously developing processed foods that meet the needs of consumers.

Roast Abalone Chip

In general, products distributed in the market are made by grinding fish meat.

There is some perception that it is a cheap snack 'bad food' because it is processed only in the form.

The "Roast Abalone Chip" developed by our company contains carefully selected fish meat and 'abalone', the core ingredient.

This is a premium nutritious snack
