- 3.1 李惟新硕士 (会员编号: FS0354/12) 提议, 王振强 (会员编号: FT0743/22) 附议, 会议一致通过复准前期议案。

4.0 接纳 2024 - 2025 年度会务报告

- 4.1 秘书长刘雁红律师表示商会的活动大家可以看荧幕，也可以通过扫描二维码的方式查看完整报告。会务报告从 2024 年 5 月 11 日到 2025 年 5 月 16 日，这期间商会共有：59 项内部会议、11 项政府部门活动、64 项社团/商团活动、1 次常年会员大会、4 次董事会议和 46 项本会举办的活动。截至 2025 年 5 月 16 日为止，本会会员人数为 1,535 位会员商家，其中 1,271 位会员商家为永久会员，261 位会员商家为普通会员，3 位会员商家为附属会员。
- 4.2 秘书长刘雁红律师表示，本会秘书处目前已持续运作会员的 WhatsApp 群组，用于分享商会最新资讯与活动通知。群组设置为仅限管理员发言，确保讯息清晰统一。若会员尚未加入该群组，可能是误以为是诈骗群组，欢迎随时联系秘书处协助加入。此外，秘书处也持续推动人力资源发展相关项目，本会已成功注册为 HRD Corp 认证的训练中心，今年将继续为会员规划与举办实用课程，协助企业提升人力素质。
- 4.3 大会议长戴良麟表示，从秘书长的报告中可见，商会在过去一年活动涵盖广泛领域，包括工业、农业、数字经济、考察团等，内容多元而有深度，充分体现了会长的领导力、董事们的积极推动，以及秘书长与秘书处团队的辛勤付出。此外，商会亦持续提升服务层次，正式推行商会专家咨询平台（KCCCI Experts Advisory Panel, KEAP 3.0）。该平台全年为会员提供涵盖五大领域，包括人力资源、法律事务、税务、贷款融资、海关与关税的专业咨询服务。服务形式包括：会员可书面或电话提问，由秘书处转交专家解答。KEAP 的设立，有助于协助会员企业优化营运、掌握政策、提升竞争力，朝向高质量发展迈进，在此呼吁各位会员踊跃加入。
- 4.4 会员王振强（会员编号：FT0743/22）表示，鉴于巴生作为港口城市具有地理优势，而当前中国企业因受美国制裁打压，纷纷考虑在马来西亚设厂，他建议商会可考虑提供对接服务或商机媒合平台，协助中资企业与本地商家建立联系，促进双方合作与商业发展。会长拿督陈杰辉回应表示，目前商会并没有定期性的对接项目或设定特定时段安排，但是时常会接待来自中国省级或者个体经营者交流探

讨商机。尽管如此，商会始终保持开放与支持的态度，若有个别会员提出相关需求，秘书处与相关单位将尽力协助，为会员争取合适资源与合作机会。

- 4.5 会员王振强（会员编号：FT0743/22）提议，拿督吴文钦（会员编号：FM0060/98）附议，会议一致通过 2024 - 2025 年度会务报告。

5.0 接纳 2024 年度财务报告

- 5.1 财政周源德报告指出，本会 2024 年度的财务报表由 Crowe Horwath 会计事务所稽查审核。截至 2024 年，总资产为 RM8,515,373，其中最大比例为定期存款，达 RM1,886,515，其次为现金及银行存款 RM440,996。本会总基金为 RM8,380,066。

- 5.3 会长拿督陈杰辉补充说明，2024 年度财务亏损的主因，是约 RM100,000 用于“历史走廊”建设费用已计入会所维修项目中，从而影响整体账面盈亏情况。
- 5.4 黄晟尧（会员编号：FI0037/12）提议，梁哲民（会员编号：FT0615/16）附议，会议一致通过接纳 2024 年度财务报告。

6.0 讨论事项

6.1 董事提呈提案

大会一致通过以下提案:

(A) 宏观经济及政府政策

Macro-Economics and Government Policies

1. 提案: 1. 呼吁政府解除全面停止外劳申请, 并解除 2023 年 3 月对引进新外劳实施的冻结。
2. 呼吁政府重启外劳合法化计划, 简化申请与登记程序、提高处理效率, 并设定合理期限, 加强执法与监管机制, 以保障劳资双方权益, 确保国家劳动力市场的稳定, 推动经济的可持续发展。

案由: 1. 冻结外国工人的申请将影响本国的生产力和国内生产总值。许多中小企业仍然依赖外劳, 因此将受到严重影响。

2. 政府应逐案批准外劳申请, 以满足企业不断变化的生产需求。

3. 一些新投资者也必须开始申请配额, 因为他们在投入运作方面, 有某些程序仍需要一些低技能人力。如果他们无法雇用外国工人, 就会影响他们的投资计划。

4. 马来西亚多个行业面临劳工短缺, 过去的外劳合法化计划 (如 6P 计划) 曾有效解决问题, 但现今非法外劳问题再度恶化。若不重启该计划, 将导致雇主因人手不足影响营运并增加执法与社会成本。

处理方法: 已提呈至马来西亚中华总商会处理

2. 提案: 呼吁政府在未来修改最低薪金制和雇员利益时, 应根据区域性制定最低薪金制, 同时也多聆听工商界的意见以采取逐步提高幅度的策略。

案由：最低薪金制将迫使公司将额外的成本转嫁给消费者，这将导致更高的通货膨胀。同时，在骨牌效应下将导致另一轮的百物涨价，最终受苦的将是老百姓，而且此举只会把国内商业领域推向万劫不复的境地，最终唯恐严重冲击国家经济复苏。

处理方法：已提呈至马来西亚中华总商会处理

3. 提案：呼吁政府鼓励与提倡中小企业投入电子商务领域、人工智能以促进企业数码化，并通过多媒体管道加强宣传与推广所推出的税务奖掖或融资计划或辅导计划，以让更多商家知道。

案由：全球经济前景未明朗的形势下，本地中小企业应把握难得的战略机遇，善用政府机构的各种奖掖配套和优惠政策，配合政府启动的数字经济大蓝图，进军跨境电商、接轨全球市场，为马来西亚优质的本地产品开拓更多国际销路。

处理方法：已提呈至马来西亚中华总商会处理

4. 提案：1. 呼吁政府继续积极公正地打击贪污腐败，依法行政，杜绝滥权行为。政府应在彻查贪污案件的同时，果断采取法律行动，对涉案者依法严惩，确保执法不流于形式，案件有始有终，以营造廉洁、高效与可信赖的营商环境，进一步增强外资对我国的信心。
2. 呼吁政府不应给予公务员太大的决定权，以避免发生滥权和贪污问题。公务员必须拥有诚信，秉公地处理所有申请手续。同时，政府也应灌输民众有关自身权利和所有部门工作标准作业程序的意识。

案由：1. 贪污足以摧毁国家，导致政治不稳定，商业活动受阻，民众也无法获得公平及正义。这将影响外国投资者来马投资。

2. 行政不透明是腐败的主要原因，应删减所有部门程序的繁文缛节，以打击贪污。若无法在预定的时间处理民众的申请或问题，那就必须给予一个充分的理由，让民众了解情况。

处理方法： 已提呈至马来西亚中华总商会处理

5. **提案：**
1. 呼吁政府应采取应对措施以控制不断上升的通货膨胀，如政府或贸消部应该严格监督和管制物价上涨的问题；同时应改善经商环境以减少营运成本。
 2. 呼吁政府在合理化补贴并设法增加收入期间，需平衡针对性补贴的需要，确保不会增加人民负担。尤其在美国对等关税不确定性持续升温的背景下，也希望政府能暂缓推行可能进一步加重企业与民众负担的国内政策，如 RON95 汽油补贴合理化、电费调涨及多层次外劳人头税等措施。

- 案由：**
1. 高通货膨胀将降低人民的消费能力使人民面对生活困境，另外政府必须确保日常用品供应充足以抑制物价上涨，同时确保目前的津贴政策持续下去以平衡通货膨胀。
 2. 物价上涨易,下跌难已成为我们面对的现实，而政府将在今年推行的针对性汽油补贴政策更是将加剧当前的通胀压力。
 3. MIDF 证券的研究指出，预计针对性 RON95 汽油补贴将于今年中旬实施，此举将导致通货膨胀率上升至 2%-3.5%。政府针对通胀问题的措施包括补贴合理化计划、提高服务税，以及逐步推进的渐进式薪金政策。然而，这些政策或许会进一步加剧我国的通胀压力，进而对民众的生活造成更大的负担。

6. 提案： 呼吁政府举行地方议会选举。

案由： 目前我国地方议会的议员是由州政府委任，为了实现更民主的社会，建议让人民投票选出地方议会的议员，才能更有效地管理和选出贤能、清廉及能为人民服务的议员。

处理方法： 已提呈至政府相关单位处理

7. 提案： 呼吁政府加强措施，协助中小企业更好地适应《区域全面经济伙伴关系协定》（RCEP）。政府相关机构亦应举办各类 RCEP 研讨会与宣传活动，积极向中小企业传达相关资讯，并提供明确的指导与协助。

案由： 1. 马来西亚于 2022 年 1 月提交了 RCEP 的批准书（IOR），并于 2022 年 3 月 18 日生效实施。
2. 马来西亚中小企业（SMEs）是经济增长的重要驱动力，但在区域全面经济伙伴关系协定（RCEP）的框架下，许多企业仍缺乏认知和准备。因此，政府必须采取更积极的措施，帮助中小企业充分利用 RCEP 带来的机遇，并应对潜在挑战。

8. 提案： 呼吁国能和政府必须严肃看待并对电力定价结构进行更加公平和合理的调整，并在改革前广泛征求各行业的意见，以降低中小企业和低收入群体的经济负担。

案由： 电费上涨对我国人民和商界的冲击巨大，尤其在当前经济复苏阶段，任何额外的成本负担都可能导致中小企业(SMEs) 经营压力倍增，甚至影响就业市场。此外，高电费也直接打击普通家庭的生活成本，迫使低收入群体进一步缩减日常开支。原本已经面对通胀压力，现在又得为电费上涨而苦恼。国能和政府必须严肃看待。

9. 提案：
1. 呼吁政府加速修订《旅游业法令》与《公司法令》，以全面改善现行制度上的漏洞与弊端。政府应深入研究对策，并依据不同行业与领域设立更具针对性的申请与营运条件，例如上调最低缴足资本、限制外资持股比例、增设本地合资要求或产业购买资格等，从源头上加强对外国人在马设立公司的管理与筛选机制，防止滥用政策、规避监管等行为。我们建议针对外国公司设立明确规定，包括最低缴足资本为马币五十万令吉（RM500,000），以提高设立门槛，确保其具备相应财务能力与长远经营意图，进一步保障本地企业权益，维护国家经济利益，避免资源外流与不公平竞争。
 2. 呼吁政府严厉执法，对那些未遵守本地法律的公司采取果断行动，包括加重处罚或提高罚款金额，确保所有在马来西亚营运的企业都能遵守本地法规，保障国家利益与本地业者的合法权益。

- 案由：
1. 外国人来马来西亚开公司的政策过于宽松，门槛非常低，开设私人有限公司，最低缴足资本仅 1 令吉（不包括限制行业）、需要一名在大马居住的董事、1 名股东（可以是外资）等条件，就可 100%持有。
 2. 自马来西亚放宽入境政策后，部分外籍人士通过短期入境方式在马从事工作活动，未经正式注册公司或以不符合规定的方式提供服务，因其收费远低于本地市场价格，已对本地业者造成不公平竞争。为防止类似情况持续发生，政府应加强监管与执法，并规定所有外国人在马设立公司，必须拥有至少 RM500,000 的实缴资本，不论所属行业，以确保其投资具备严肃性与规范性，同时保障本地企业的合法权益与市场秩序。
 3. 在疫后经济复苏及免签政策的带动下，加上开业门槛偏低，近年不少外国人涌入大马“掘金”，“和本地人抢生意”的现象持续

升级，如今不仅本地微型及中小企业首当其冲，大型企业也“如临大敌”。

(B) 税务

Taxation

10. 提案： 为了支持中小型企业，呼吁政府从即日起逐年降低：

1. 中小型企业税务：

首 RM150,000-RM600,000 的税务减至 15%

次 RM600,000-RM2,000,000 的税务减至 17%

2. 投资控股公司 (Investment Holding Company) 应当享有与中小型企业相同的税务机制。

案由： 1. 我国大企业的公司税高达 24%，比新加坡，香港（17%）、泰国及越南（皆 20%）都高。
2. 降低企业税务优惠政策，不但降低了企业经营成本，也利于经济增长，并刺激国内直接投资成长率(DDI)，同时，也吸引国外资本(FDI 国际直接投资)的大量涌入，可为本国人创造更多就业机会，提高我国企业的国际竞争力以及促进出口贸易的增长。

11. 提案： 呼吁政府全面豁免个人及公司超过 3 年的产业盈利税(RPGT)，同时给予 50%的印花税折扣，以协助刺激房地产市场。

案由： 1. 房地产业是我国经济增长的重要引擎，涵盖住宅、工业、商业及土地开发等领域，具有资金密集、劳动密集的特点，且产业链长、关联产业广泛，对整体经济发展具有显著的拉动效应。

2. 受新冠疫情及经济放缓的影响，房地产市场交易低迷，导致开发商资金回笼受阻、建筑业就业市场萎缩，并间接影响建材、金融、装修等相关行业的发展。
3. 减免产业盈利税（RPGT）及提供印花税优惠，可降低房产交易成本，提高市场流动性，刺激投资与消费，进而盘活房地产市场，带动上下游产业复苏，促进经济稳步增长。

- 12. 提案：** 呼吁政府重新启动消费税（GST）从 3% 开始并废除销售与服务税及奢侈品税。

- 案由：**
1. 重新启动消费税（GST）可以让国家税收更加平衡及增加政府收入。
 2. 与存在许多漏洞的 SST 相比，GST 是一种更有效的税收制度。
 3. 新增的 SST 8% 计算方式不明朗，容易导致企业混淆。

(C) 贸易及工业

Trade and Industry

- 13. 提案：**
1. 呼吁政府在 2030 年新工业大蓝图（NIMP 2030）下，进一步强化工业 4.0 政策的系统性与实用性，特别是加大对中小企业的支持力度。建议扩大财政激励、提供额外税务津贴，并加强自动化与数码转型援助，协助企业加速迈向高附加值与高生产力发展。这不仅符合 NIMP 推动产业升级的目标，也有助于提升我国工业竞争力，朝向区域智能制造枢纽的定位迈进。
 2. 呼吁政府考虑将目前来自各产业的外劳人头税（Levy）设立为专项基金，用于推动工业自动化及数码转型。例如，该基金可用于提供低息融资，协助企业购买自动化设备与相关软件，加速落实工业 4.0 技术。而现有外劳税收尚未形成系统性机制以回馈产业发展与

升级，这反映出政策上的重要缺口。政府应把握契机，善用财政工具推动高附加值、高生产力的发展模式，以协助我国迈向区域智能制造枢纽的目标。

- 案由：
1. 随着全球产业加速迈入工业 4.0 时代，自动化、数码化及智能制造已成为推动国家经济转型的关键动力。我国政府虽已推出多项相关政策如 Industry4WRD、Smart Automation Grant (SAG) 及数码经济蓝图，但整体推行进度仍显缓慢，尤其是中小企业 (SMEs) 在资金、技术与人力资源方面面临巨大挑战，转型动力不足。
 2. 根据大马统计局与贸工部报告，目前我国仅有不到 30% 的制造业企业开始部分采纳工业 4.0 技术，显示出工业转型尚未全面落地，且与区域国家相比仍有明显差距。若不加快政策落实与资源调配，我国企业将在全球价值链中持续边缘化，错失创新与竞争的关键窗口。
 3. 马来西亚工业 4.0 转型已到关键阶段，政府需以更积极的财政政策、务实的资源分配，以及包容性的门槛设计，确保中小企业不被遗漏。通过税收激励、软性贷款与外劳税再分配的三轨并行，方能加速整体产业升级，实现可持续经济竞争力。
 - 多数中小企业仍处工业 4.0 初期阶段，缺乏清晰认知与资源，无法满足现有财政援助（如 DISF(国内投资战略基金)、工业 4.0 干预基金）的高门槛要求，且相关资金已近枯竭。
 - 国际竞争压力下，中小企业因自动化程度不足，面临市场边缘化风险。
 4. 外劳税基金未有效利用
 - 现行外劳人头税收未系统化用于推动工业自动化，错失以税收反哺产业升级的机会。

14. 提案： 呼吁政府强化对外资投资的战略管控，确保优先采用本地供应链，并落实技术转移机制。目前，政府确实对多项外资直接投资项目(FDI)施加了本地内容要求，但在这些要求的实施过程中，似乎缺乏有效的监督与执行。因此，建议政府加强对当地内容利用的监测，确保相关政策得到落实，从而促进本地企业的发展和技术创新。

案由： 近年来，马来西亚积极推动招商引资，成功吸引大批外资进来，涵盖电动车、高科技制造、数据中心、半导体等关键领域。然而，我们也观察到，多数外资项目虽对 GDP 与就业带来一定贡献，却普遍存在“本地化不足”与“供应链脱节”的问题，未能真正带动本地企业成长或技术水平提升。尤其在对国家经济影响深远的战略性行业，如高端制造、绿色科技、半导体、新能源与关键原材料加工等，若缺乏妥善管控，将导致我国长期依赖外资主导，缺乏自主性与议价能力，甚至形成技术外流与产业空心化的风险。

处理方法： 已提呈至马来西亚中华总商会处理

15. 提案： 1. 呼吁政府全面推动“支持购买国货”政策，特别是在政府采购制度中，应优先采用本地制造的产品与服务。同时，也希望政府积极推行进口替代政策，鼓励政府机构、商家及消费者在采购决策中优先选择本地产品，以取代进口商品。
2. 此外，政府应鼓励所有本地制造商在其产品上清楚标示“Made in Malaysia”标签，以提升本地品牌辨识度，同时增强消费者对国产货的信心。这些措施将有助于振兴本地企业、刺激国内经济，并提升国货在区域与国际市场的竞争力。

案由： 1. 在全球经济不确定性持续升高之际，振兴本地企业、扩大内需市场已成为国家经济发展的重要策略。我国拥有优质的本地制造业与服务行业，涵盖食品、建材、工业零部件、资讯科技、医疗用品等多个领域，具备稳定的供应能力与良好质量。

2. 然而，在现行政府采购制度中，常见优先采用外资品牌或进口货品的现象，导致本地企业在政府项目中被边缘化，错失扩大市场与提升品牌影响力的机会。
3. 政府作为国内最大采购者之一，有责任也有能力通过实际采购行为支持国货发展，以带动整体产业链成长，增强经济韧性。

- 16. 提案：**
1. 呼吁政府如马来西亚贸易发展局（Matrade）设立一个一站式中心，协助出口商处理和解决进口国家在环境、社会和治理 ESG 的要求。
 2. 呼吁政府制定明确的政策，通过有关机构推出与 ESG 相关的认证并提供财政援助和税务优惠以支持与鼓励中小型企业实践 ESG。

- 案由：**
1. 中小企业占马来西亚企业总数的 98%，但出口贡献不足 20%，主因是缺乏市场研究、国际认证（如 ESG）等支持，迫切需要系统性援助以扩大出口规模。
 2. 欧盟碳边境调整机制（CBAM）已进入过渡阶段（2023-2025 年），要求出口商披露碳排放数据，未来可能面临碳关税成本。许多企业尚未熟悉 ESG 的相关要求，迫切需要获得专业指导，以规避未来在市场进入方面可能面临的风险。
 3. 有 ESG 框架由不同机构各自推出，导致企业（尤其中小企业）难以适从，需统一标准简化流程。
 4. ESG 实践（如清洁技术、劳工福利）需高额投入，中小企业资金有限，若无补贴或优惠，将难以与国际同行竞争。
 5. ESG 认证可帮助企业获得国际买家认可，但需确保认证门槛合理且财政援助覆盖微型、中小型企业，而非仅惠及大型企业。

17. 提案:
1. 呼吁农业部积极宣传及推动现代农业并善用农业 4.0 的科技, 提供资讯及援助金给商家。同时, 对现代农业科技的运用和青年从事农业方面, 应加大扶助政策和拨款。
 2. 呼吁政府开放更多的荒地耕种计划, 允许人民申请使用荒地发展太阳能农业结合模式, 即在荒地上方安装太阳能板, 在下方进行农业种植。这不仅能提高荒地的使用率与农粮产品的生产率, 也有助于推动绿色能源发展, 增加农民收入, 为国家粮食安全与可再生能源发展作出双重贡献。
 3. 呼吁农业部提供及宣传都市农业 (Urban Farming) 的课程, 教育及鼓励人民善用自家空地。
 4. 呼吁州政府以优惠价或推出低息贷款租赁种植地予农民, 同时加强宣传及简化租赁程序, 以提高水果蔬菜等农业产量及农民的收入。

- 案由:
1. 马来西亚未来仍然面临食品安全问题, 因为其对进口食品依赖性很高, 尤其是大米。大约四分之一的马来西亚食品供应来自进口。辣椒等常见食材在大多数马来西亚菜肴中常见, 其中近三分之二几乎来自泰国。关于马来西亚食品安全的问题, 其中一个问题是本国的农业产能并不发达。
 2. 我国地理位置优越, 得天独厚, 因此本地农业拥有很多潜能, 只要加强人力资源、资金、科技及创新, 我国农业就能大展宏图。只要能达到自给自足, 甚至还能出口至国外, 那么我国农业就能为我国国民带来更多的收入。
 3. 随著现代科技进步, 这些荒地开垦和运作也应确保运用现代农业科技。这样不仅可以有效提高农作物的产量和农民的收入, 同时也应鼓励更多青年投入农业领域, 以减少对劳力的依赖。
 4. 人民可以在自家空地种植蔬果, 以达到自供自给。
 5. 我国水果种植也正蓬勃发展, 为国家带来极大受益, 但农民面对缺乏农地, 以种植水果。
 6. 目前租赁私人农地价格昂贵, 加重种植成本, 影响农民发展农作物的意愿。

处理方法： 已提呈至马来西亚中华总商会处理

18. 提案： 1. 呼吁政府积极支持并建立一个全面的国家生物肥料政策，必须在马来西亚农业中有至少 30%的化学肥料被生物肥料所替代。
2. 呼吁政府提供补贴和财政奖励，鼓励农民转向有机耕作方式灌溉农作物。

案由： 1. 数十年来化学肥料的使用严重退化了马来西亚的土壤，导致酸化和致毒性，阻碍了农作物生长。这种退化减少了土壤有机物和微生物的活性，这对于养分循环和土壤健康至关重要。此外，这些肥料中积累的有害化学物质还污染了水道。这威胁到马来西亚农业的可持续性、国家农作物自给自足的能力和经济发展稳定性。

2. 采用生物肥料对马来西亚至关重要，因为这符合国家和全球对可持续农业的承诺，增强生产力和环境安全。这个提案支持联合国可持续发展目标和巴黎协定目标，旨在到 2030 年将碳排放量降低 45%，并在 2050 年实现净零排放。

19. 提案： 呼吁政府大力推动绿色能源。在增加更多的电动汽车充电站的同时，应统一合理的充电价格和软件系统，并标准化一个对外平台。

案由： 1. 人类要生存发展离不开能源，要实现绿色发展就要大力推动能源生产和利用方式的变革。

2. 统一的标准和规范将有效降低电动车及充电桩的市场入门槛，提高市场竞争力，增加市场需求。

- 20. 提案：** 呼吁政府全面加速提升我国的宽频网络覆盖率及服务质量，继续扩大涵盖宽频的服务范围，及提高全国工业区的高速宽频（HSBB）覆盖率和加速 5G 设备，以提供更优质、稳定及快速的服务，促进国内电子商务的发展，让城市边缘地区受惠，也让工业区有更快速和可负担的网络服务。

案由： 1. 疫情后的新常态出现新契机，网络尤为普遍，这绝对是未来影响我国经济成长的因素之一。尽管近年来全国各地的网络服务已经略有改善，且价格也有所降低，可是在大部分乡村地区的网速依然缓慢、不稳定且价格昂贵。在顺应电子时代发展，并惠及全国人民的需求下，建议政府在铺建宽频电讯基建时，应不只是关注城市居民，也需涵盖全国各乡区，扩大涵盖宽频的服务范围，让全国人民通过网络来适应新冠肺炎疫情后所带来的生活改变。

2. 许多工业和商业领域都高度依赖网络，以支持他们的运作。

- 21. 提案：** 呼吁人力资源发展基金将超过 2 年没有用过的 HRD Levy 延长至 5 年。

案由： 从注册开始第一个月给的 Contribution 到现在的两年里面开始算起，若都完全没有去用过(HRD Levy)，其 HRDF 户口的钱超过 RM10,000 就会被系统自动扣掉。

- 22. 提案：** 呼吁 JPJ PUSPAKOM 能够重视车主面临的实际困难，尽快采取行动，优化验车流程，确保政策执行的合理性及人性化增加验车中心容量与效率。

案由： 近期，JPJ PUSPAKOM 实施新政策，禁止通过中介（Runner）处理验车事务，要求车主亲自驾车前往验车中心。这一政策的初衷是为了提高

透明度和减少违规操作，但随之而来的问题是，验车预约期限过长，导致许多车主的交通工具因无法及时验车而面临无法合法行驶的困境，进而造成经济损失。

(D) 教育与培训

Education and Training

- 23. 提案：**
1. 呼吁政府或教育部鼓励学术界与企业推动产学合作计划，深入探讨符合市场需求的课程（尤其是应用科学和技术课程）以让大学生学以致用，同时也提供企业所需的人才，以减少大学生失业问题。
 2. 呼吁政府或教育部提供更多适用于企业的技职教育课程。

- 案由：**
1. 国家朝向先进国需要培养更多技术工人，以应付国家技术及服务领域的庞大需求，而掌握一技之长，除可提升竞争能力，也能同时解决经济不景气所带来的失业率。
 2. 大学的任务是培育人才、传播知识、进而知识创新，必须培育出符合社会需求并能以创新方式带动进步的人才，因此学术界可以透过产学合作研究，帮助企业解决人力资源问题并突破经营困境，从中也丰富教学内容，建立实务经验，让学生毕业后学以致用，增加就业率并促进国家经济成长。
 3. 课程需适用于企业。

处理方法： 已提呈至马来西亚中华总商会处理

- 24. 提案：** 呼吁政府设立专门大学，开设如高频无线通信、空间导航卫星系统、人工智能、环境保护等新兴科技课程。此举不仅有助于提升青年人才的就业能力，也将加快国家迈向工业革命的步伐，提升国家的竞争力。

- 案由：
1. 我国在培训人才方面，可从两个方向开始着手，第一吸引学生就读科学与工程科系；第二则是加强科学和数学的教学品质。
 2. 现今就读科学与工程科系的学生人数下降，若想增加对这门科系的兴趣，可从小学下手。政府可以拨款在全国设立科学中心，从中激发学生的兴趣。
 3. 目前大专学院毕业生并不具备科技上的工作能力，尤其在新科技的发展中，甚至学校教师也未有这方面的接触，导致有学术断层的现象。

(E) 旅游与地方政府

Tourism & Local Authority

25. 提案： 呼吁雪州旅游局积极推动巴生及滨海一带的旅游业，同时规划旅游地区，疏解交通阻塞的情况。

案由： 巴生及滨海一带不乏旅游景点，就如适耕庄、瓜拉雪兰莪、瓜拉冷岳等都有吸引游客之处。推广旅游业不仅是能带动人潮，也能促进当地经济，增加工作机会，以提升竞争能力。

处理方法： 已提呈至巴生市议会和雪州旅游局处理

26. 提案： 呼吁各政府机构，建立更多的防洪池以尽快解决巴生、直落昂及巴生港口常年淹水问题。

案由：

1. 巴生处于下游地带，上游地带和附近地区河水都会流向巴生，所以需要更多防洪池来应对，不过也需上游地区，附近地区及州政府共同努力来解决。
2. 近日巴生南北区就不断发生水患，午后暴雨一段时间后，路面严重积水造成交通阻塞和住家被水入侵数尺高，也造成物质损失和生命

受到威胁！尤其是巴生北区包括北巴生海峡大道、武吉拉惹区及巴生卫星市一带。

处理方法： 已提呈至政府相关单位处理

27. 提案： 呼吁地方政府朝向智能城市的方向发展，在巴生和滨海区各城镇设置 CCTV 监控系统，以改善当地治安。

案由： 治安对于营商环境与人民非常重要，拥有和谐的环境才能促进商机和有利于居住环境，可参考中国的做法，在各个地区设置监控系统，以杜绝罪案的发生。

处理方法： 已提呈至政府相关单位处理

28. 提案： 呼吁政府及公共工程局加快直落昂地区的道路提升与改善工程，以系统性解决排水不良所引发的问题，并有效缓解当地日益严重的交通拥堵与交通事故频发的状况，提升整体道路安全与通行效率。

案由： 直落昂区目前正在进行道路提升工程，不过这也衍生一系列的问题：

- i. 工程进展缓慢；
- ii. 下雨时，排水系统出现问题，道路更快淹水；
- iii. 工程导致严重交通阻塞。

处理方法： 已提呈至政府相关单位处理

Throughout the year, this platform provides members with professional consultation in five key areas: human resources, legal affairs, taxation, loan financing, and customs & duties. The service format includes written or telephone inquiries from members, which will be forwarded by the Secretariat to experts for their responses. The establishment of KEAP helps member enterprises optimize operations, stay informed on policies, and enhance competitiveness, steering towards high-quality development. On this note, he called on all members to actively participate.
- 4.4 Member Ong Chin Keong (Membership No.: FT0743/22) stated that given Klang' s geographical advantage as a port city, and the increasing number of Chinese enterprises considering setting up factories in Malaysia due to U.S. sanctions and restrictions, the Chamber could explore providing a matching service or a business facilitation platform to help connect Chinese enterprises with local businesses, thereby fostering cooperation and commercial development between both parties. In response, President Dato' Jeffery Tan stated that at present, the Chamber does not have regular matching projects or designated timeframes for such arrangements, but it often receives delegations from provincial-level or private business representatives from China to explore potential business opportunities. Nevertheless, the Chamber has always maintained an open and supportive stance, and should individual members raise related needs,

the Secretariat and relevant units will do their best to provide assistance, helping members secure suitable resources and partnership opportunities.

- 5.1 Treasurer Chew Guan Teck reported that the Chamber' s financial statements for the year 2024 were audited and reviewed by Crowe Horwath accounting firm. As of 2024, the total assets amounted to RM8,515,373, with the largest proportion being fixed deposits at RM1,886,515, followed by cash and bank balances of RM440,996. The Chamber' s total funds stood at RM8,380,066.
- 5.2 Treasurer Mr. Chew further explained that the total income for 2024 was RM880,236, mainly derived from membership fees, certificate of origin services, fixed deposit interest, rental income from properties and the auditorium, as well as profits from events/seminars. The total expenditure amounted to RM966,136, with the major expenses being property depreciation, staff salaries and overtime allowances, and clubhouse maintenance costs. Therefore, the accounts for the year recorded a deficit of RM101,699.
- 5.3 President Dato' Jeffery Tan further explained that the main reason for the financial deficit in 2024 was that approximately RM100,000 spent on the construction of the "History Corridor" had been recorded under building maintenance expenses, which in turn affected the overall profit and loss position.

- 5.4 The meeting unanimously approved the financial statements for 2024 as proposed by Ng Shern Yau (Membership No : FI0037/12) seconded by Michael Leong Jit Min (Membership No : FT0615/16).

6.0 Matter Arising

6.1 Discussion on Prepared Motions submitted by Members

6.2.1 The meeting unanimously approved the following motions:

(A) Macro-Economics and Government Policies

1. **Proposal:**
1. To urge the government to lift the total freeze on the applications for foreign workers and the freeze imposed in March 2023 on the import of new foreign workers.
 2. To urge the government to reintroduce the Foreign Workers' Recalibration Programme, simplify application and registration processes, enhance processing efficiency, setting a reasonable timeframe, reinforce law enforcement and supervision mechanism in order to safeguard the interests of workers and employers and ensure the stability of the nation's labour market, thus driving the sustainable economic development.

Rationale: 1. The freeze on applications for foreign workers will impact the nation's productivity and GDP and seriously affect many SMEs which still rely on foreign workers.

2. The government should approve applications for foreign workers on a case-by-case basis to meet the changing production needs of enterprises.
3. Some new investors need to apply for the foreign worker quotas, as certain production processes require low-skilled manpower and their inability to hire foreign workers will upset their investment plans.
4. Many industrial sectors in the country are facing labour shortage and the previous foreign workers recalibration programmes (such as the 6P Programme) had effectively resolved the problems. However, the problem of undocumented foreign workers is getting worse now and if the recalibration programme is not reintroduced, labour shortage will impact employers' operations and increase enforcement and social costs.

2. Proposal: To urge the government to fix the minimum wage based on areas and listen more to the views of the business sector to adopt a gradual increase strategy when revising the minimum wage scheme and employees' benefits in the future.

Rationale: The minimum wage scheme will force employers to pass on the additional cost to consumers, causing higher inflation. At the same time, the domino effect will trigger another round of price increases and eventually bring suffering to the people. The proposed increase will only lead the business sector to dire straits, eventually undermining the nation's economic recovery.

3. **Proposal:** To urge the government to encourage and promote the participation of SMEs in e-commerce and Artificial Intelligence (AI) to facilitate enterprise digitization and at the same time make use of multimedia channels to intensify publicity and promotion on tax incentives or financing grants or guidance programmes offered by the government to inform more traders.

Rationale: In the face of the uncertainty surrounding the global economic outlook, local SMEs should seize the hard-to-come-by strategic opportunities by taking full advantage of the various incentive packages and preferential policies offered by the government to venture into cross-border e-commerce in line with the Malaysia Digital Economy Blueprint in order to integrate with the global market and open up more international sales channels for quality local products.

4. **Proposal:** 1. To urge the government to continue its efforts vigorously and impartially in eradicating corruption and to eliminate all forms of administrative abuse in accordance with the rule of law. The government should thoroughly investigate corruption cases and take decisive legal proceedings to severely punish the culprits to ensure that such legal process would not become a mere formality thereby creating a business environment of integrity, high efficiency and trustworthiness to further enhance the confidence of foreign investors.

2. **To urge the government not to give too much discretionary power to civil servants to prevent incidents of abuse of power and corruption. Civil servants must process all applications with integrity and impartiality. At the same time, the government should cultivate public awareness of their rights and the Standard Operations Procedures (SOP) of all government agencies.**

Rationale: 1. Corruption can destroy a nation and result in political instability, stagnant business activities and deprive the public of fairness and justice, affecting investment in the country by foreign investors.

2. Administrative non-transparency is the main cause of corruption and hence all procedural and application red-tape in relevant government agencies should be minimized to curb corruption. If applications or problems faced by the public are not resolved within the scheduled time, an appropriate reason should be given to keep the public informed.

5. **Proposal:** 1. **To urge the government to take appropriate measures to control the escalating inflation such as strict supervision and control of price increases by the government or the Ministry of Domestic Trade and Cost of Living while improving the environment for doing business to lower the operating cost of businesses.**
2. **To urge the government to balance the need for targeted subsidies so as not to add to the burden of the**

people in the course of rationalizing government subsidies and increasing revenue. This is especially so in the backdrop of the continual uncertainty caused by the reciprocal tariffs imposed by the United States. It is hoped that the government could defer the implementation of any domestic policy which could increase the burden of businesses and the general public, such as the rationalization of RON95 petrol subsidy, electricity tariffs hikes and multi-tier levy system on foreign workers.

- Rationale:
1. High inflation weakens people's consumption power and causes difficulties in livelihood. It is important for the government to ensure an adequate supply of daily essentials to suppress price increases. In addition, the government must ensure that the present subsidy policy is continued so as to balance inflation.
 2. Prices will remain high once increased and this is a reality facing the people. The policy on targeted fuel subsidy to be implemented by the government this year is likely to increase the current inflationary pressure.
 3. According to a report by MIDF Research, the upcoming implementation of the targeted RON95 fuel subsidy in the middle of this year could lead to a 2-3.2% increase in inflation. Government initiatives to curb inflation include subsidies rationalization, increase of sales and service tax and progressive wage policy. However, these measures may further increase the inflationary pressure and burden the public's livelihood.

6. Proposal: To urge the government to hold election for local councils.

Rationale: Currently, councilors of local councils are appointed by the respective state governments. To enable the people to have a bigger say and to create a more democratic society, it is proposed to allow the people to manage and elect their local councilors who are capable, honest and dedicated in serving the local population.

7. Proposal: To urge the government to introduce more measures to support SMEs in embracing the RCEP (Regional Comprehensive Economic Partnership). In addition, government agencies should conduct seminars and awareness activities on RCEP to enlighten SMEs on the relevant information, as well as to provide guidance to SMEs on RCEP.

- Rationale:
1. Malaysia submitted the Instrument of Ratification (IOR) on RCEP in January 2022, and started to implement it on 18 March 2022.
 2. SMEs in Malaysia are a key driver of economic growth. However, under the RCEP framework, many SMEs still lack of knowledge and preparedness to benefit from it. Hence, the government must take more proactive measures to assist SMEs to take full advantage of the opportunities generated by RCEP and tackle any potential challenges brought about by it.

8. **Proposal:** To urge the Tenaga Nasional Berhad (TNB) and the government to take a serious view on the proposed hikes in electricity tariffs and implement more just and reasonable adjustments of the tariff structure. In addition views of the various sectors must be widely sought before any hike in tariffs to lessen the economic burden of SMEs and the low-income group.

Rationale: Any hike in electricity tariffs will significantly impact the people and the business community, especially at this stage of economic recovery. Any burden caused by additional costs will multiply the operating pressure on SMEs, and even the job market. In addition, higher electricity tariffs will directly affect the living costs of ordinary families who are already facing the pressure of inflation, and force the low-income group to further reduce their daily expenses, adding to their woes. Thus, the TNB and, therefore the government must view this seriously.

9. **Proposal:** 1. To urge the government to expedite the amendments to the Tourism Industry Act 1992 and the Companies Act 2016 to comprehensively plug any loopholes and shortcomings on the prevailing systems. It is imperative for the government to conduct an in-depth study to formulate counter measures to beef up the management and screening of companies set up by foreigners to prevent at source acts such as abuse of policies, and avoidance of supervision. Such measures may include an increase in the minimum paid-up capital, restriction of foreign shareholding, additional requirement on local joint ventures or qualification on

industrial procurement. We propose setting specific requirements on companies established by foreigners, including a minimum paid up capital of RM500,000.00 higher threshold to ensure they have the required financial capability and intention for long term operation, further safeguarding the rights of local enterprises, national economic interests and preventing the outflow of resources and unfair competition.

- 2. To urge the government to conduct strict enforcement and take decisive actions against companies which fail to comply with local laws, including imposing heavy punishment or hefty fines to safeguard the nation' s economic interests and the legitimate rights of local business operators.**

- Rationale:
1. The policy on foreigners forming companies in Malaysia is too lax with extremely low threshold, as setting up a private limited company with 100% ownership only requires a paid-up capital of RM1 (excluding restricted sectors), one director who is a Malaysian resident, and one shareholder (can be a foreigner).
 2. Following Malaysia' s relaxation of its entry policy, certain foreigners have made use of short-term entry to work here by offering services without having officially incorporated a company or in an improper manner. As the foreigners offer prices which are much lower than those charged by local operators, they have caused unfair competition to local operators. Hence, to prevent such cases from continuing, the government needs to tighten supervision

and law enforcement and require all companies in Malaysia by foreigners to have at least a paid-up capital of RM500,000.00, regardless of sectors to ensure the seriousness and regularity of their investment here while protecting the legitimate rights of local enterprises and market order.

3. Driven by the post pandemic recovery and visa-free policy coupled with the low threshold for starting a business, in recent years many foreigners are increasingly rushing to Malaysia and competing for business with locals. Local macro and small and medium enterprises bear the brunt of such a trend while large enterprises are also on guard.

(B) Taxation

10. Proposal: To urge the government, as a measure to support SMEs, to immediately lower the tax rates on SMEs each year as follows:

1. Tax rates on SMEs:

- Reduce to 15% on the first RM150,000 to RM 600,000.
- Reduce to 17% on the next RM600,000-RM2,000,000.

2. Investment holding companies should be entitled to the same tax regime as SMEs.

- Rationale:**
1. The corporate tax rate of 24% imposed on large companies in Malaysia is higher than the tax rates of Singapore, Hong Kong (17%) , Thailand and Vietnam (both 20%) .
 2. A preferential policy of a lower corporate tax rate will not only reduce operating costs and benefit economic growth

but will also stimulate the growth of Direct Domestic Investment. It will also attract the influx of Foreign Direct Investment, thus creating more job opportunities, enhancing the international competitiveness of local businesses as well as promoting export trade.

11. Proposal: To urge the government to fully waive the Real Property Gain Tax (RPGT) on properties acquired by individuals and companies for more than three years, and at the same time provide a 50% discount on stamp duty so as to help stimulate the property market.

- Rationale:
1. The property industry (including houses, factories, land development) is an important engine for Malaysia's economic growth. It is also a capital and labor-intensive industry-driven sector having a long industry chain and multiple ancillary sub-sectors.
 2. The property market transactions were depressed due to the pandemic outbreak and economic slowdown, leading to cashflow woes of developers, shrinking job market for the construction sector, and indirectly impacting the development of the building materials, financial, renovation and other related industries.
 3. The waiver and reduction of RPGT and preferential stamp duty will lower the cost of property transactions, improve market liquidity and stimulate investment and consumption, driving the recovery of upstream and downstream industries as well as steady economic growth.

- 12. Proposal: To urge the government to reintroduce the GST with a starting rate of 3% and abolish the present Sales and Services Tax (SST) and Luxury Goods Tax.**

- Rationale:
1. The reintroduction of the GST will contribute towards more equitable tax regime and increase revenue for the nation.
 2. GST is a more efficient tax system as compared to SST which has many loopholes.
 3. The computation of the newly increased Sales and Services Tax is unclear and easily cause confusion among businesses.

(C) Trade and Industry

- 13. Proposal:**
1. To urge the government to enhance the systemic nature and practicality of the Industry 4.0 policy under the New Industrial Master Plan (NIMP), in particular giving more support to SMEs. It is proposed that more financial incentives, additional tax allowance, greater assistance for automation and digital transition be given to help enterprises expedite their path towards the development of higher added value and productivity. This is not only in line with the objectives of the NIMP for industrial upgrading but also enhances the nation's industrial competitiveness, transforming Malaysia into a regional smart manufacturing hub.
 2. To urge the government to use the foreign worker levy collected from various sectors to set up a special fund for the purpose of driving industrial automation and

digital transformation. For instance, the fund can be used to provide low-interest financing to assist enterprises to purchase automation equipment and related software to expedite the implementation of Industry 4.0 technologies. The current levy collection has yet to form a systematic mechanism to give back to industrial development and upgrading, reflecting a key policy void. Hence, it is imperative for the government to take advantage of the opportunity to make best use of this financial tool to promote a development model of added value and high productivity, driving the nation towards the goal of becoming a smart regional manufacturing hub.

- Rationale: 1. As industries all over the world are speeding up their embrace of the era of Industry 4.0, automation, digitization and smart manufacturing have become the key driving force for the countries' economic transformation. Although the Malaysian government has launched a number of related policies such as Industry4WRD, Smart Automation Grant (SAG) and the Digital Economy Blueprint, the overall implementation progress is still slow, especially for small and medium enterprises (SMEs), which face huge challenges in terms of funding, technology and human resources, and lack the motivation for transformation.
2. According to reports of the Malaysian Statistics Department and the Ministry of Trade and Industry, currently less than 30% of manufacturing enterprises in Malaysia have begun to partially adopt Industry 4.0

technologies, indicating that industrial transformation has yet to be fully implemented and there is still a significant gap if compared with countries in the region. If the implementation of policies and the allocation of resources is not expedited, local enterprises will continue to be marginalized in the global value chain and miss the key window for innovation and competition.

3. As Malaysia's Industry 4.0 transformation has now reached a critical stage, it is necessary for the government to adopt more proactive fiscal policies, pragmatic resource allocation, and inclusive threshold design to ensure that SMEs are not left out. Only by implementing a 3-prong approach of tax incentives, soft loans, and foreign worker levy redistribution can the overall industrial upgrading be accelerated and sustainable economic competitiveness be achieved.
 - Most local SMEs are still in the early stages of Industry 4.0 and lack a clear understanding and resources, and unable to meet the high threshold requirements of existing financial assistance schemes (such as the DISF (Domestic Investment Strategic Fund) and Industry WRD 4.0 Intervention Fund, and after all, the relevant funds are almost exhausted.
 - Given the pressure of international competition, local SMEs face the risk of market marginalization due to insufficient automation.
4. Underutilization of the Foreign Labor Tax Fund
 - The current foreign labor levy has not been systematically applied to promote industrial

automation, missing the opportunity to use tax revenue to support industrial upgrading.

- 14. Proposal: To urge the government to strengthen strategic control over foreign investment, ensure that local supply chains are prioritized, and implement a technology transfer mechanism. At present, the government has introduced local content requirements on a number of foreign direct investment (FDI) projects, but there seems to be a lack of effective supervision and enforcement in the implementation of these requirements. Hence, it is proposed that the government strengthen monitoring of local content utilization and ensure that relevant policies are effectively implemented, thereby promoting the development of local enterprises and technological innovation.**

Rationale: 1. In recent years, Malaysia has been actively promoting foreign investment to the country and has successfully attracted a large number of foreign investments in key areas covering electric vehicles, high-tech manufacturing, data center, and semiconductors and so on. However, it has been observed that although most foreign investment projects have contributed to Malaysia's GDP and employment, the problems of "lack of localization" and "disconnection with the supply chain" of these projects remain, and the projects have failed to truly drive the growth of local companies or uplift their technological level.

2. This is especially so in strategic industries which have a far-reaching impact on the nation's economy, such as high-end

manufacturing, green technology, semiconductors, new energy, and key raw material processing where a lack of proper management and control will lead to the country's long-term reliance on foreign investment, lack of autonomy and bargaining power, and even the risk of technology outflow and industry hollowing.

15. Proposal: 1. To urge the government to fully promote the "Buy Malaysian Products Campaign, especially in the government procurement system, by giving priority to local made products and services. At the same time, we also advocate that the government actively implement import substitution policies to encourage government agencies, businesses and consumers to give priority to local-made products in their purchasing decisions to substitute imported goods.

2. In addition, the government should encourage all local manufacturers to clearly display the "Made in Malaysia" label on their products to enhance local brand recognition and enhance consumer confidence in Malaysian products. These measures will help revitalize local enterprises, stimulate the domestic economy, and enhance the competitiveness of domestic products in regional and international markets.

Rationale: 1. In view of the increasing uncertainty of the world economy, revitalizing local enterprises and expanding the domestic market have become an important strategy for national economic development. Malaysia has quality local manufacturing and service industries, covering food, building

materials, industrial parts, information technology, medical supplies and other fields, with stable supply capacity and good quality.

2. However, in the current government procurement system, it is common to give priority to foreign brands or imported goods, resulting in local enterprises being marginalized in government projects and missing opportunities to expand their market and enhance brand influence.

3. As one of the largest purchasers in the country, the government has the responsibility and ability to support the development of local goods through actual procurement actions, so as to drive the growth of the overall industrial chain and enhance economic resilience.

16. Proposal: 1. To urge the government, such as the Malaysian Trade Development Corporation (MATRADE), to set up a one-stop centre to assist exporters in handling and resolving the Environmental, Social and Governance (ESG) requirements of importing countries.

2. To urge the government to formulate clear policies, introduce ESG-related certifications by relevant institutions, and provide financial assistance and tax incentives to support and encourage SMEs to practice ESG.

Rationale: 1. SMEs account for 98% of the total number of enterprises in Malaysia, but their contribution to the nation's exports is less than 20%. This mainly due to the lack of support in

terms of market research and international certification (such as ESG). Hence, they urgently need systematic assistance to expand the size of exports.

2. The EU Carbon Border Adjustment Mechanism (CBAM) has entered the transition phase (2023-2025), whereby exporters are required to disclose carbon emissions data and may face carbon tariff costs in the future. Many enterprises are unfamiliar with ESG requirements and need urgent guidance to avoid market access risks.
3. Some ESG frameworks were launched by different institutions, making it difficult for enterprises (especially SMEs) to comply with, resulting the need to standardize and simplify the processes.
4. ESG practices (such as clean technology and labour welfare) require high investments. SMEs have limited funds and will find it difficult to compete with their international counterparts without subsidies or preferential treatment.
5. ESG certification can help enterprises gain recognition from international buyers, but it is necessary to ensure that the certification threshold is reasonable and that financial assistance covers micro and small and medium sized enterprises rather than just benefiting large enterprises.

- 17. Proposal: 1. To urge the Ministry of Agriculture and Food Security to actively publicize and promote modern agriculture and make best use of Agriculture 4.0 technology and provide relevant information and funding to**

agricultural entrepreneurs. At the same time, the government should enhance its policy and allocation to promote the use of modern agricultural technology and encourage youth to venture into agricultural activities.

2. To urge the government to open more idle land for application by the people to develop “photovoltaic and agricultural” projects by installing solar panels above such idle land and carry out farming below. This will not only improve the utilization of idle land but also the productivity rate of agricultural produce and the development of green energy, increasing farmers’ income while contributing to the nation’s food security and development of renewable energy.
3. To urge the Ministry of Agriculture and Food Industries to conduct and publicize courses on Urban Farming so as to educate and encourage the people to make use of vacant land of their houses.
4. To urge the state government to lease farm land to farmers at concessionary rates or provide low interest loans for leasing while intensifying publicity and simplifying the lease process so as to increase fruits and vegetables production and farmers’ income.

Rationale: 1. Malaysia remains vulnerable to food insecurity in the future due to being reliant on imports for maintaining its food supply, especially for rice. Around a quarter of Malaysia’s food supply comes from imports. A common item such as chili which is found in most Malaysian cuisines

is imported almost two-thirds from Thailand. A lingering issue in regard to Malaysia's approach towards food security is the underdevelopment of its agricultural capacity.

2. Agriculture has immense potentials due to Malaysia's strategic geographic location and abundance of natural resources. With the proper input of human resource, capital, technology and innovation, the sector will grow by leaps and bounds, achieving not only self-sufficiency in food production but also food exports to generate more income for the people.
3. With the advance of modern technology, the development and operation of idle land will ensure the use of modern agricultural technology, thereby effectively increasing crops production and income of farmers and encouraging more youths to involve in the agricultural sector and reducing the reliance on labour.
4. People may plant vegetables and fruits on vacant land of their houses to achieve self-sufficiency.
5. Malaysia's fruit growing industry is booming and brings substantial benefits to the nation. However, farmers are facing the shortage of farm land to grow fruits.
6. The current rentals for private-owned land are high, increasing the cost of farming and affecting farmers' intention to develop crops.

- 18. Proposal:**
- 1. To urge the government to aggressively support and establish a comprehensive national biofertilizer policy that mandates at least a 30% replacement of chemical fertilizers with biofertilizers in Malaysian agriculture.**
 - 2. To urge the government to provide subsidies and financial incentives to encourage farmers to shift to organic farming and crop irrigation.**

- Rationale:**
1. Decades of chemical fertilizer use have severely degraded Malaysian soil, leading to acidification and toxicity that hinder crop growth. This degradation diminishes soil organic matter and microbial activity, crucial for nutrient cycling and soil health. Additionally, accumulated harmful chemicals from these fertilizers pollute waterways. This is threatening Malaysia's agricultural sustainability, national crop self-sufficiency, and economic stability.
 2. Adopting biofertilizer is crucial for Malaysia as it aligns with national and global commitments to sustainable agriculture, enhancing productivity and environmental safety. This approach supports the United Nations Sustainable Development Goals and the Paris Agreement targets, aiming for a 45% reduction in carbon intensity by 2030 and net-zero emissions by 2050.

- 19. Proposal:** **To urge the government to strongly promote promotion of green energy. In addition to installing more charging stations for Electric Vehicles, reasonable charging fees and software systems should be standardized as an external platform.**

Rationale: 1. Energy is indispensable for human survival and development and green development requires significant reforms on the ways energy is produced and utilised.

2. Uniform standards will effectively lower the threshold of market access of electric vehicles and charging posts, enhancing market competitiveness and demand.

20. Proposal: To urge the government to increase the overall coverage of broadband, High Speed Broadband (HSBB) and expedite the installation of 5G infrastructure in the country, and improve its service quality by providing more quality, stable and fast service, promoting the development of e-commerce, so as to extend the coverage of broadband service to benefit more areas and provide faster and affordable internet service to industrial areas.

Rationale: 1. The post pandemic new normal has created new opportunities with the increasing usage of the internet and this will definitely become one of the factors influencing the nation's future economic growth. In spite of the slight improvement and lower charges for internet service in the country, internet speed in most rural areas remains slow, unstable and expensive. In tandem with the development of the electronic age and for the benefit of all Malaysians, it is proposed that the government pay attention not only on the urban population but all rural areas in the country when building broadband infrastructure in order to expand the coverage of broadband service and enable the

people to adapt to post pandemic changes in their lifestyle.

2. As a result of the post-pandemic new normal, many industrial and commercial sectors are highly dependent on the internet to support their operations.

21. Proposal: To urge the Human Resource Development Fund to extend the validity of HRD Levy unutilized for two years to five years.

Rationale: HRD Levy contributed for two years from the date of registration with HRDF in excess of RM10,000 will be forfeited automatically when no claims were made within two years.

22. Proposal: To urge JPJ PUSPAKOM take a serious view on the practical difficulties faced by vehicle owners, and act as soon as possible to, optimize the vehicle inspection process so as to ensure the reasonable and humanized policy implementation, improving the capacity and efficiency of vehicle inspection centers.

Rationale: Recently, JPJ PUSPAKOM has implemented a new policy that prohibits the use of intermediaries (Runners) to handle vehicle inspections and requires vehicle owners to personally drive to the vehicle inspection center. The original intention of this policy was to increase transparency and reduce illegal operations, but the new policy has caused a problem whereby the vehicle inspection appointment period was too long, putting many car owners in a tight spot of unable to drive

their vehicles legally due to the inability to inspect the vehicles in time, which in turn caused economic losses.

(D) Education and Training

- 23. Proposal:**
- 1. To urge the government or the Ministry of Education and the academia to promote Industry-Academia Collaboration and study in-depth courses matching market needs (especially science and technology based courses) to enhance students' marketability and provide industry-oriented human capital, thereby minimizing unemployment of graduates.**
 - 2. To urge the government or the Ministry of Education to provide more technical and vocational courses compatible with the needs of enterprises.**

- Rationale:**
1. As Malaysia aspires to become a developed nation, it requires more technical workers to be trained to meet the huge demand in the technical and service sectors. Being equipped with a skill can enhance one's competitiveness and help lower the unemployment rate caused by the economic slowdown.
 2. The role of universities is to nurture talents, disseminate knowledge and develop innovation. Hence, universities should groom talents who match the needs of the community and are capable of fostering progress with innovation. In this aspect, through industry-university collaborative research, The Academia can assist in resolving problems and operation difficulties facing them while enriching teaching contents and practical experience

of universities which can be used by students after their graduation, thereby improving their employability and the nation' s economic growth.

3. Courses need to be applicable to businesses.

24. Proposal: To urge the government to set up specialised universities which offer new science programmes such as high frequency wireless communications, space-based navigation satellite system, Artificial Intelligence, environmental protection, and so on. This will not only enhance the employability of young talents but also expedite the nation's pace towards industrial revolution and promote competitiveness.

- Rationale:
1. Malaysia could adopt a two-prong approach in talent training: The first prong is to attract students to pursue courses in science and engineering and the second prong is to enhance the teaching quality of science and mathematics.
 2. University enrolment for science and engineering courses is on the decline and to cultivate students' interests in these subjects, we may start with primary students. In addition, the government should provide allocations for the setting up of science centres throughout the country to stimulate students' interest in science.
 3. Presently, graduates of institutions of higher learning are not equipped with the necessary technical / technological skills, especially in new technologies and even teachers are

less exposed technologically, resulting in a gap in the teaching of technical and technological knowledge and skills.

(E) Tourism and Local Government

- 25. Proposal: To urge Tourism Selangor to actively promote tourism in Klang and the coastal areas, carry out planning of tourist spots, and make efforts to alleviate traffic congestion.**

Rationale: Klang and the coastal region of Selangor are abounded with tourist destinations such as Sekinchan, Kuala Selangor, and Kuala Langat. The promotion of local tourism will not only increase tourist arrivals but also drive the local economy, increase job opportunities and competitiveness.

- 26. Proposal: To urge the relevant government agencies to build more retention ponds to resolve as soon as possible the yearly floods woes in Klang, Telok Gong and Port Klang.**

Rationale: 1. As Klang is situated in the lower stretches of Klang River, water from the upper stretches flows towards Klang and hence it requires more retention ponds to hold rain runoff. It also needs the joint efforts of areas in upper stretches and the state government to resolve the problem.

2. Recently, the southern and northern parts of Klang, in particular the North Klang Straits Bypass, Bukit Raja and Klang Utama had been hit by frequent floods in the afternoon after a heavy downpour, causing traffic jam and flooding of residential houses and damage to property and threat to personal safety of residents.

- 27. Proposal: To urge the local government to develop towards the smart city concept by installing CCTV system at various areas in Klang and Coastal Selangor to improve local safety and security.**

Rationale: Security and safety are crucial for a conducive business environment and local residents as a harmonious environment will promote business opportunities and a livable setting. In this aspect, reference may be made to China whereby CCTVs are installed widely to prevent crimes.

- 28. Proposal: To request the government/public works department to expedite and enhance the road upgrading and improvement projects in the Telok Gong area. This is essential to effectively address persistent drainage issues, alleviate growing traffic congestion, and reduce the frequency of road accidents, thereby improving overall safety and transportation efficiency in the region.**

Rationale: Telok Gong area is currently undergoing road improvement project, but this has led to a series of issues:

- i. Slow progress of the project;
- ii. Drainage system problems during rain, causing roads to flood more quickly; and
- iii. Severe traffic congestion caused by the project.

- 6.2 Chairman of the Meeting Ir. Ter Leong Leng welcomed everyone to actively join KEAP 3.0. This working group brings together professional consultants from various fields, with a particularly broad scope in Human Resources

(HR). The core philosophy of KEAP is to provide professional assistance that helps SME owners share the burden of management challenges. Services include weekly expert consultation sessions (clinic sessions), which can be arranged by appointment for one-on-one meetings, as well as ad-hoc phone consultations. This platform offers highly practical and efficient professional support at a low cost, making it a valuable resource for reference and participation.

- 6.3 Secretary General Liew Ngan Fung highlighted that the Chamber organizes a wide range of activities and encouraged members to actively join various working groups and participate in different programs to foster greater communication and networking among members. She also mentioned the HRDF (Human Resource Development Fund) claimable resources, encouraging companies that contribute to the levy to make full use of them. Members are welcome to register for HRDF-related courses through the Chamber to fully benefit from the government-provided training fund.
- 6.4 President Dato' Jeffery Tan emphasized that the Chamber has established multiple activities and platforms for members to participate in, with over 10 working groups currently in place. These include the Commerce and Economic Research Committee, Culture and Education Committee, Legal Affairs Committee, SME and Human Resources Committee, Industry and Agriculture Committee, Digital Economy Committee, Women Entrepreneurs Committee, Young Entrepreneurs Committee, Logistics Committee, International Trade/ASEAN Affairs Committee, Malaysia-China Economic and Trade Committee, Membership Affairs and Publication Committee and Infrastructure, Construction and Property Committee. Covering a wide range of fields, members are encouraged to join based on their interests and expertise, to jointly contribute to the Chamber's development and initiatives. This collective

participation strengthens unity, enables resource sharing, and further enhances interaction and cohesion among members.

The meeting adjourned at 11.50am.

Graduation Ceremony on SKM & DKM via PPT Programme

本会自 2012 年起，积极推广技职认证，协助超过 40 位技工成功获得马来西亚技能文凭（SKM），提升其专业地位与就业竞争力。为了进一步推动华裔技工取得国家承认的技能认证，本会中小型企业暨人力资源组与新纪元技职与推广教育学院合作于 2025 年 5 月 17 日（星期六）在本会礼堂举办《凭工作经验考取技术认证》毕业典礼。

Since 2012, Chamber has actively promoted technical and vocational skills certification, assisting more than 40 skilled workers in successfully obtaining the Malaysian Skills Certificate (SKM), thereby enhancing their professional standing and employment competitiveness.

In an effort to further encourage Chinese skilled workers to obtain nationally recognized skills certification, the SME and Human Resources Committee of KCCCI collaborated with New Era Institute of Vocational and Continuing Education to organize the “Graduation Ceremony on SKM & DKM via PPT Programme” on Saturday, 17 May 2025, at the Wisma KCCCI.

The Graduation Vocational Ceremony commenced at 9:00 a.m., honoring skilled workers who successfully obtained the SKM Level 3 and the Diploma Kemahiran Malaysia (DKM). The ceremony also aimed to encourage more skilled workers to pursue professional certification pathways.

This graduation ceremony not only showcased the achievements of the graduates’ hard work and dedication, but also marked a significant milestone in their professional careers.

The ceremony was specially held for nine graduates who successfully passed the certification assessment. They are:

1. SEE BOO SENG
2. GOH FOOK OON

3. TEOH CHEE HONG
4. KOO SENG CHUAN
5. LIM KING SAI

7. YAP ENG KIAT

2. 技职教育说明会

Briefing on SKM & DKM VIA PPT

随着我国对技术与职业教育的持续重视，马来西亚技能认证制度（SKM 与 DKM）已成为在职专业人士提升自身竞争力、取得国家认可技术资格的重要途径。尤其是 PPT 机制（*Pengiktirafan Pencapaian Terdahulu*），为拥有多年实务经验的从业者提供一个无需重新就读课程、直接申请认证的管道，极具实用性与时代意义。

本会中小型企业暨人力资源组联合新纪元技职与推广教育学院，于 2025 年 5 月 17 日（星期六）中午 12 时至 1 时，在本会礼堂举办 SKM & DKM via PPT 课程说明会（*Briefing of SKM & DKM via PPT Programme*），为有意报读认证课程的技工提供全面讲解。

随着政府陆续在各技术领域落实政策，明确规定技工必须持有相关技术证书，方能参与政府工程、受聘就业，乃至注册成立公司，技职认证已成为技工生涯发展的重要门槛。当前大多数华裔技工虽拥有丰富实务经验，却因未受正式教育，欠缺一纸文凭保障其专业能力。

在现今社会，许多技工的收入已超越学术毕业生，而国家正迈向高收入国目标，却面对技术人才短缺问题。为此，本会在推动技职认证方面责无旁贷，期望透过 PPT（凭工作经验评估）机制，让技工朋友无须上课或考试，就能依据其实际工作经验申请 SKM Level 1、2、3 及 DKM 资格。

本次讲座共吸引 20 位来自不同行业的在职人士出席。

With Malaysia's continued emphasis on technical and vocational education, the Malaysian Skills Certification system (SKM and DKM) has become an important pathway for working professionals to enhance their competitiveness and obtain nationally recognized technical qualifications. In particular, the PPT mechanism (*Pengiktirafan Pencapaian Terdahulu*) provides a practical and timely route for experienced practitioners to apply for certification directly, without the need to retake formal courses.

The SME and Human Resources Committee of KCCCI, in collaboration with New Era Institute of Vocational and Continuing Education, organized the Briefing of SKM & DKM via PPT on Saturday, 17 May 2025, from 12:00 p.m. to 1:00 p.m. at the Wisma KCCCI. The briefing aimed to provide comprehensive guidance for skilled workers interested in applying for certification.

As the government continues to implement policies across various technical fields—requiring skilled workers to hold relevant technical certificates in order to participate in government projects, seek employment, or register companies—technical certification has become a critical milestone for career development. Currently, many Chinese skilled workers possess extensive practical experience but lack formal education, leaving them without documented recognition of their professional capabilities.

In today's society, many skilled workers earn incomes exceeding that of academic graduates. As Malaysia strives toward becoming a high-income nation, it also faces a shortage of technical talent. In this context, KCCCI takes an active role in promoting skills certification. Through the PPT mechanism, skilled workers can apply for SKM Levels 1, 2, 3 and DKM qualifications based on their actual work experience, without attending formal classes or examinations.

The briefing attracted 20 working professionals from various industries.

On 26 July 2025, the Associated Chinese Chambers of Commerce and Industry of Coastal Selangor (ACCCICS) held its 19th (2025) Annual General Meeting (AGM) and the election of Council Members for the term 2025-2028.

In his address, the ACCCICS President, Dato' Jeffery Tan, highlighted that amid global uncertainties and domestic policy adjustments, the business community is currently facing 3 major challenges. These include soaring operating costs that have placed enterprises under mounting policy pressures, the proliferation of illegal and informal foreign businesses disrupting market order, and obstacles in international trade that have narrowed survival space for exporters. He urged the government to take these issues seriously and implement practical and effective measures to ease the burden on businesses, particularly to help SMEs overcome current adversities.

Dato' Jeffery Tan further emphasised that the government should immediately strengthen negotiations with the United States to reduce tariffs to below 20%, thereby alleviating cost pressures faced by local exporters in the international market. He also proposed that the government promptly introduce short-term export assistance packages and tax buffer mechanisms, while actively supporting businesses in exploring alternative markets such as the Middle East, ASEAN, and Central Asia. These measures, he noted, would help reduce overreliance on the US market and enhance the competitiveness and resilience of Malaysian SMEs within the global trade landscape.

He highlighted that the 13th Malaysia Plan (2026–2030) sets national targets including an annual economic growth rate of 4.5%–5% and achieving high-income nation status by 2030. He urged the government to strengthen the implementation of key policies such as NIMP 2030, NSS, and NETR.

He also expressed concern over the 19% tariff imposed by the United States on Malaysian exports and emphasized the importance of expanding cooperation under RCEP, CPTPP, and BRICS. Regarding fiscal and taxation policies, he proposed postponing measures that would increase business costs, reducing the service tax rate to 4%, and addressing illegal foreign business activities. Looking ahead, he expressed hope that the 2026 National Budget would be more business-friendly and announced that the Chamber will celebrate its 80th anniversary and host the ACCCIM Annual General Meeting in August 2026.

Dato' Ng Yih Pyng, President of the Associated Chinese Chambers of Commerce and Industry of Malaysia (ACCCIM), expressed his pleasure in attending the 79th Anniversary Dinner and thanked the organizers and guests for their strong support. He noted that Klang, as the location of Malaysia's largest port, serves as a core hub for trade and industrial development. The government plans to double Westports' capacity over the next 20 years and develop Carey Island into a maritime and industrial hub to strengthen its global port position. In response to the 19% tariff imposed by the United States on Malaysian goods starting August 2025, he suggested expanding the scope of export growth tax incentives and increasing the ceiling of the Market Development Grant to enhance business competitiveness. He emphasized that ACCCIM will continue assisting enterprises in upgrading and transformation, nurturing the next generation of entrepreneurs, and working closely with the government and business community to promote practical policies for shared prosperity.

During the dinner, the Chamber presented commemorative souvenirs to YB Tuan Ganabatirau A/L Veraman and Dato' Ng Yih Pyng as a token of appreciation. A special opening dance performance was presented by Duo Space Dance Theatre, followed by a musical performance by Teow Chew Moi (TCM Band) from Penang, which enlivened the evening's atmosphere.

Organising Chairman Ong Kwee Lee stated that the event not only united various sectors in celebrating an important milestone of the Chamber but also provided a valuable platform for member companies to exchange ideas and explore collaboration. He reiterated that the Chamber will continue upholding its mission of serving members and promoting trade development, connecting the local economy with international markets and creating more opportunities and resources for businesses.

On 27 September 2025, the Chamber's SME and Human Resources Committee organized the 2025 Economic Forum. The forum was held under the theme *"Gaining Insights into Global Trends, Positioning for Future Opportunities"*.

The forum featured three distinguished speakers — Lee Heng Guie, Teoh Kok Lin and Dato' Koong Lin Loong who delivered insightful presentations on international trade, capital markets, and the development prospects of SMEs. Their sharing aimed to help businesses stay attuned to global economic trends and formulate forward-looking strategies.

The KCCCI President Dato' Jeffery Tan highlighted that amid the rapidly evolving global landscape, SMEs must cultivate a global perspective and strong adaptability. He expressed hope that the forum would serve as a valuable platform for dialogue between businesses and experts, enabling local enterprises to broaden their perspectives and seize emerging opportunities.

Lee Heng Guie noted in his presentation that Malaysia's economy is projected to grow between 4.0% and 4.3% in 2025, with growth expected to remain around 4.0% in 2026. He emphasized that the global financial system is currently experiencing a trend toward "de-dollarization." While the dominance of the U.S. dollar remains intact in the short term, global dependence on the dollar is gradually declining over the longer term.

Teoh Kok Lin encouraged businesses to actively adopt innovative tools such as AI customer service, AI search engines, and AI-generated video solutions to enhance customer experience and strengthen brand communication. He

stressed that future winners will be enterprises that demonstrate creativity, effectively leverage AI technologies, and maintain a global outlook.

Dato' Koong Lin Loong emphasized that enterprises can identify breakthrough opportunities by focusing on five key dimensions: market, capital, talent, products, and policy. He advised businesses to study and leverage national initiatives such as the 13th Malaysia Plan (RMK-13), the New Industrial Master Plan 2030 (NIMP 2030), and the Johor–Singapore Special Economic Zone (Johor–Singapore SEZ), in order to capitalize on policy incentives and participate in national development efforts. He further highlighted that eligible enterprises may tap into government support mechanisms, including low-interest financing, tax incentives, and talent development grants, to inject new momentum into their growth.

The forum attracted approximately 200 representatives from the business community, with active engagement and positive feedback throughout the session.

24. 巴生中华总商会专家咨询组 (KEAP) 系列讲座：雇主权力与试用期陷阱

KEAP Series Seminar: Employer Rights & Probation Period Pitfalls

本会专家咨询组 (KEAP) 于 2025 年 10 月 4 日 (星期六) 上午 10 时, 在本会礼堂举办专家咨询组系列讲座 “Navigating Labour Law: Employer Rights & Probation Period Pitfalls”。讲座邀请人力资源法律专才兼 KS Loo 律师事务所创办人卢家桑及马来西亚大华银行 (UOB) 副总裁 (业务开发经理, 个人金融服务) 关颂蓉担任主讲嘉宾。

本会署理会长兼专家咨询组主任戴良麟在致辞时表示, 中小企业若要在瞬息万变的经济环境中保持竞争力, 必须深入了解劳动法及相关法规, 以降低人事风险。他指出, KEAP (KCCCI Expert Advisory Panel) 成立宗旨是为会员企业提供涵盖人资、法律、税务、融资及关税等领域的全年免费咨询服务, 帮助企业主及时获得专业意见。

卢家桑以 “了解雇主权利与试用期风险” 为题, 深入解析《雇佣法令》下雇主的权利与责任, 并强调试用期与短期合约在法律上的差异。他指出, 虽然短期合约合法, 但若长期续签不转正, 可能被视为剥夺雇佣保障, 带来法律风险。他强调, 试用期是雇主与员工 “互相评估” 的阶段, 并提醒雇主务必保存书面沟通与警告记录, 以备日后争议。同时, 他建议企业可透过商会或制造业联合会 (FMM) 向政府争取产假税务减免, 让雇主在承担产假薪资时享有双倍扣税, 以平衡企业负担与社会责任。

第二位讲者关颂蓉则以 “UOB U@Work – Rewards Where You Work” 为题, 介绍大华银行为企业提供的职场金融方案, 包括人资相关金融服务与员工福利计划, 协助企业提升员工满意度与管理效率。讲座现场互动热烈, 参与者纷纷就劳动法实务提出问题, 反映业界对劳动法规实务操作的高度关注。活动在问答环节与交流时间中圆满结束。

On 4 October 2025, The Expert Advisory Panel (KEAP) of the Chamber organized a seminar titled “Navigating Labour Law: Employer Rights & Probation Period

Pitfalls” . The seminar featured two distinguished speakers: Loo Kia Shong, a human resource legal specialist and founder of KS Loo & Co, and Kuan Shong Yong, Business Development Manager of United Overseas Bank (UOB).

Deputy President of the Chamber and Chairman of KEAP, Ir. Ter Leong Leng, emphasized that SMEs must possess a solid understanding of labour laws and related regulations to mitigate employment risks and remain competitive in a rapidly changing economic environment. He highlighted that KEAP was established to provide member enterprises with year-round complimentary consultation services in areas including human resources, legal, taxation, financing, and customs matters, enabling business owners to obtain timely professional advice.

Loo Kia Shong delivered a presentation titled “Understanding Employer Rights and Probation Period Risks,” in which he provided an in-depth analysis of employers’ rights and responsibilities under the Employment Act. He clarified the legal distinctions between probationary employment and fixed-term contracts, noting that while fixed-term contracts are lawful, repeated renewals without confirmation of employment may be deemed as depriving employees of employment protection, thereby exposing employers to legal risks. He stressed that the probation period serves as a mutual evaluation phase between employer and employee, and advised employers to maintain proper written records of communications and warnings in case of future disputes. Furthermore, he suggested that businesses could collaborate with chambers of commerce or the Federation of Malaysian Manufacturers (FMM) to advocate for maternity leave tax incentives, proposing double tax deductions for employers bearing maternity leave wages in order to balance business costs with social responsibility.

Kuan Shong Yong, presented on “UOB U@Work – Rewards Where You Work,” introducing UOB’s workplace financial solutions for enterprises, including HR-related financial services and employee benefit schemes aimed at enhancing employee satisfaction and improving management efficiency. The seminar saw

lively interaction, with participants raising numerous practical questions related to labour law applications, reflecting the strong interest of industry players in employment law practices. The event concluded successfully with an engaging Q&A and networking session.

The seminar attracted more than 100 business owners, HR managers, and administrative executives from various industries. Chamber representatives who attended included Ir. Ter Leong Leng, Liew Ngan Fung, Lee Hooi Seng, Low Kok Siang, Jacqueline Chua, Chew Guan Ho and Leong Jit Min.

25. 2026 年度财政预算案对经济、股市及税务的影响

Budget Talk 2026

本会商务暨财经研究组于 2025 年 10 月 13 日，晚上 7 时 30 分于本会礼堂举行“2026 年财政预算案对经济、股市及税务的影响”讲座会，主讲者为经济专家白文春、股市专家黄訢瀚及税务专家周德谦，主持人为本会副财政兼商务暨财经研究组副主任李伟丞硕士。

经济专家白文春指出，2026 年财政预算案延续稳健理财的路线，整体方向趋向理性与纪律化，显示政府在财政压力下，仍努力兼顾人民生活与经济结构转型。他认为，预算案最大意义在于“建立自我调整空间”，让个人、企业与政府在有限资源中提升竞争力，而非长期依赖补贴。白文春也提醒，虽然再度发放“爱心基本援助金”有助于缓解生活压力，但长期而言补贴过高将挤压发展开销，对经济成长不利，因此政府应逐步转向投资导向型支出，推动国家竞争力。

股市专家黄訢瀚则分析，这份预算案虽属“理性务实型”，但在刺激资本市场方面仍显保守，缺乏激励企业投资与扩张的亮点。他认为，在国际资本环境趋紧的背景下，政府应通过更积极的税务优惠与融资便利，吸引更多企业上市及再投资。黄訢瀚指出，尽管预算案提出多项中小企融资计划，但仍需进一步简化申请机制，并加强市场信心，以带动股市活力与投资动力。

税务专家周德谦则针对税制改革表示，2026 年预算案虽无新增税负，但通过精准的减免与激励措施，引导企业数字化转型及个人理财规划，整体方向值得肯定。他形容本

次预算案“如一杯绿茶——不甜也不苦”，虽无“派糖”惊喜，却蕴含多项节税空间。周德谦提醒纳税人，应善用延长至2030年的私人退休金计划（PRS）扣税、教育与医疗保险扣除等项目，以合法方式减轻税务负担。现场共有107人出席此讲座会。

本会代表出席者有丹斯里拿督林宽城、梁家兴博士、拿督陈杰辉、戴良麟、李伟丞硕士、黄天佐、葉福财、李贵彬、萧良友和黄金兴。

On 13 October 2025, the Chamber's Commerce and Economic Research Committee organized a seminar titled "The Impact of the 2026 National Budget on the Economy, Stock Market and Taxation". The seminar featured three distinguished speakers: economist Pek Boon Soon, stock market analyst Ng Zhu Hann, and tax specialist Zen Chow. The session was moderated by the Chamber's Deputy Treasurer and Deputy Chairman of the Commerce and Economic Research Committee, Lee Hooi Seng.

Economist Pek Boon Soon remarked that the 2026 National Budget continues along a path of prudent fiscal management, reflecting a rational and disciplined approach. He noted that despite fiscal pressures, the government is striving to balance public welfare with economic structural transformation. According to him, the key significance of the Budget lies in enabling individuals, businesses, and the government to enhance competitiveness within limited resources rather than relying indefinitely on subsidies.

While acknowledging that the continued distribution of the Basic Rahmah Assistance provides short-term relief to ease living costs, Pek Boon Soon cautioned that excessive long-term subsidies could crowd out development expenditure and hinder economic growth. He therefore suggested that the government gradually shift towards more investment-driven spending to strengthen national competitiveness.

Stock market expert Ng Zhu Hann described the Budget as "rational and pragmatic," but relatively conservative in stimulating the capital market. He observed that the Budget lacks strong incentives to encourage corporate

investment and expansion. In the context of tightening global capital conditions, he recommended that the government introduce more proactive tax incentives and financing facilitation measures to attract new listings and reinvestment activities. Ng Zhu Hann added that although several SME financing initiatives were announced, the application mechanisms should be further streamlined and market confidence strengthened to revitalize the stock market and boost investment momentum.

Tax expert Zen Chow commented that while the 2026 Budget does not introduce new taxes, it incorporates targeted reliefs and incentives that encourage corporate digital transformation and personal financial planning, which he viewed positively. He reminded taxpayers to take advantage of available deductions, including the extension of tax relief for the Private Retirement Scheme (PRS) until 2030, as well as deductions for education and medical insurance, in order to reduce their tax burden lawfully.

A total of 107 participants attended the seminar.

Chamber representatives present included Tan Sri Dato' Lim Kuang Sia, Dr. Leong Kai Hin, Dato' Jeffery Tan, Ir. Ter Leong Leng, Lee Hooi Seng, Kelvin Ng, Yap Hock Chai, Lee Kew Peng, Siew Leong Yew and Ng Kim Heng.

He also shared several key initiatives currently being implemented, including the New Incentive Framework (NIF), the TRACK (Targeted Realisation of Accelerated Corporate and Key Projects) mechanism, and Industry Talent Management initiatives. These efforts aim to help companies accelerate the implementation of investment projects, enhance industrial competitiveness, and strengthen the development of industry talent.

In addition, MIDA briefed the participants on the NIF investment tax incentive policies, including the Special Tax Rate, which is structured based on the quality of investments and the level of commitment by companies, as well as the Investment Tax Allowance (ITA) offered to high-value investments and targeted industries. These incentives are designed to encourage businesses to move towards higher value-added development.

During the discussion, Ir. Ter Leong Leng also raised several questions regarding the implementation conditions and application requirements of the NIF, hoping to gain a clearer understanding of the practical aspects of the policy so that local enterprises can better comprehend the application criteria and development direction.

In the Q&A session, members of the committee actively shared their views and raised several issues, including:

- The hope that the government will further strengthen support and protection for local enterprises through policies and measures, allowing local businesses to enjoy a more competitive business environment.

- A proposal to promote the localisation of profit centres, encouraging more companies to establish their profit centres and core operations locally, thereby contributing to domestic economic growth.
- Feedback that many local enterprises are still unclear about government policies, and hope that MIDA can play a more proactive role in guiding businesses to better understand these policies and support their growth.
- Concerns that many products can currently enter the local market through imports at lower prices, which has intensified price competition for local products and led to market price instability.
- A suggestion that the government pay greater attention to the development of local Chinese businesses and provide appropriate policy and resource support.

Members of the Chamber gained a deeper understanding of the services provided by MIDA in investment promotion, industrial development, and business support. Both parties also expressed their hope to maintain continued communication and cooperation in the future to jointly promote the development of local industries.

Ir. Ter Leong Leng also cordially invited MIDA representatives to attend the Chamber' s 80th Anniversary Gala Dinner, which will be held on 8th August 2026 at 8:08 p.m., with the aim of further strengthening exchanges and connections between both parties.

On 5 March 2026, the Chamber' s Digital Economy Committee, Commerce & Economic Research Committee, and SME & Human Resources Committee jointly organized the workshop titled "Workshop On Increasing Business Process Efficiency Using AI" . The workshop featured experienced Chief Trainer Wong You Huat as the keynote speaker, who shared practical insights on how businesses can leverage AI tools to enhance work efficiency and achieve cost reduction in daily operations.

Organizing Chairman Chai Min Han stated that in today' s challenging global economic environment and increasingly competitive market landscape, enterprises can no longer rely solely on traditional experience to achieve growth and breakthroughs. Instead, they must embrace technological advancements, particularly the application of artificial intelligence. He noted that AI has gradually become integrated into daily business operations, playing an important role in improving efficiency and reducing costs across areas such as operational management, decision-making analysis, marketing, and customer service.

He emphasized that the objective of this workshop was to provide business leaders with a practical and hands-on learning platform. Through real-time exercises and demonstrations, participants could quickly grasp the practical use of AI tools and bring the knowledge back to their organizations to translate it into tangible business results.

During the session, Wong You Huat introduced the fundamental concepts of AI applications before guiding participants through hands-on practice with two AI tools: Google Gemini and NotebookLM. Under his step-by-step guidance, participants operated the tools themselves and explored various ways artificial intelligence can be applied in business operations.

Wong You Huat also assigned practical exercises, including using AI to create a Personal Business Model Canvas, generate images, and analyze video content by inputting video links into AI tools, enabling the system to summarize and

explain key points without requiring hours of viewing. These interactive and practical exercises made the learning process engaging and insightful, allowing participants to gain deeper understanding and inspiration on how AI can be applied in their businesses.

Towards the end of the session, participants actively asked questions while completing the assigned exercises, engaging in discussions with the trainer and demonstrating strong interest in AI applications within the business environment. companies must establish clear disciplinary handbooks and comprehensive policy frameworks to reduce the likelihood of employment disputes.

He added that the seminar aims to bring together collective insights from various sectors to explore strategies in addressing economic challenges, helping businesses to stabilise their footing before the arrival of potential economic storms. The seminar featured Tan Sri Soh Thian Lai, Honorary President of the Federation of Malaysian Manufacturers, and Tan Sri Liu Ban Tin, Chairman of the Organising Committee and President of the Persatuan Hin Ann Pantai Klang, as keynote speakers. INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF KLANG CHINESE CHAMBER OF COMMERCE AND INDUSTRY

(Incorporated in Malaysia)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the financial statements of Klang Chinese Chamber of Commerce and Industry (now referred to as "the Chamber"), which comprise the statement of financial position as at 31 December 2025 of the Chamber, and the statement of income and expenditure and statement of cash flows for the financial year then ended, and notes to the financial statements, including material accounting policy information, as set out on pages 7 to 30.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Chamber as at 31 December 2025, and of its financial performance and cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and IFRS Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Chamber in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

**INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF
KLANG CHINESE CHAMBER OF COMMERCE AND INDUSTRY (CONT'D)**
(Incorporated in Malaysia)

Responsibilities of the Council Members for the Financial Statements

The council members of the Chamber are responsible for the preparation of financial statements of the Chamber that give a true and fair view in accordance with Malaysian Financial Reporting Standards and IFRS Accounting Standards. The council members are also responsible for such internal control as the council members determine is necessary to enable the preparation of financial statements of the Chamber that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Chamber, the council members are responsible for assessing the Chamber's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the council members either intend to liquidate the Chamber or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Chamber as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:-

- Identify and assess the risks of material misstatement of the financial statements of the Chamber, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

**INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF
KLANG CHINESE CHAMBER OF COMMERCE AND INDUSTRY (CONT'D)**
(Incorporated in Malaysia)

Auditors' Responsibilities for the Audit of the Financial Statements (Cont'd)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Chamber's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the council members.
- Conclude on the appropriateness of the council members' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Chamber's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Chamber or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Chamber to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Chamber, including the disclosures, and whether the financial statements of the Chamber represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the council members regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2025

4. MATERIAL ACCOUNTING POLICY INFORMATION

4.1 Critical Accounting Estimates and Judgements

Key Sources of Estimation Uncertainty

Management believes that there are no key assumptions made concerning the future, and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year other than as disclosed below:-

(a) Impairment of Property, Plant and Equipment and Investment Properties

The Chamber determines whether an item of its property, plant and equipment and investment properties are impaired by evaluating the extent to which the recoverable amount of the asset is less than its carrying amount. This evaluation is subject to changes such as market performance, economic and political situation of the country. A variety of methods are used to determine the recoverable amount, such as valuation reports and discounted cash flows.

(b) Impairment of Non-Trade Receivables

The loss allowances for non-trade financial assets are based on assumptions about the risk of default (probability of default) and the expected loss if a default happens (loss given default). It also requires the Chamber to assess whether there is a significant increase in credit risk of the non-trade financial asset at the reporting date. The Chamber uses judgement in making these assumptions and selecting appropriate inputs to the impairment calculation, based on the past payment trends, existing market conditions and forward-looking information.

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

4.1 Critical Accounting Estimates and Judgements (Cont'd)

Critical Judgements Made in Applying Accounting Policies

Management believes that there are no instances of application of critical judgement in applying the accounting policies of the Chamber which will have a significant effect on the amounts recognised in the financial statements other than as disclosed below:-

Classification between Investment Properties and Owner-occupied Properties

Some properties comprise a portion held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately (or leased out separately under a finance lease), the Chamber accounts for the portions separately. If the portions could not be sold separately, the property is investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes.

4.2 Financial Instruments

(a) Financial Assets

Financial Assets Through Other Comprehensive Income

The financial assets are initially measured at fair value plus transaction costs. Subsequent to the initial recognition, the financial assets are remeasured to their fair values at the reporting date with any fair value changes taken up in other comprehensive income and accumulated in the fair value reserve, except for the recognition of impairment, interest income and foreign exchange difference of a debt instrument which are recognised directly in the profit and loss. The fair value changes do not include interest and dividend income.

Financial Assets at Amortised Cost

The financial assets are initially measured at fair value plus transaction costs except for trade receivables without a significant financing component which are measured at the transaction price only. Subsequent to the initial recognition, all financial assets are measured at amortised cost less any impairment losses.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2025

4. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

4.2 Financial Instruments (Cont'd)

(b) Financial Liabilities

Financial Liabilities at Amortised Cost

The financial liabilities are initially measured at fair value less transaction costs. Subsequent to the initial recognition, the financial liabilities are measured at amortised costs.

4.3 Property, Plant and Equipment

All items of property, plant and equipment are initially measured at cost.

Subsequent to the initial recognition, all property, plant and equipment, other than freehold land, are stated at cost less accumulated depreciation and any accumulated impairment losses.

Freehold land is not depreciated. Depreciation on other property, plant and equipment is calculated using the straight-line method to allocate their depreciable amounts over the estimated useful lives. The principal annual depreciation rates are:-

Buildings	2%
Computers	40%
Furniture and fittings	10%
Office equipment	10%
Renovation	10%
Signboard	10%

4.4 Investment Properties

Investment properties are initially measured at cost. Subsequent to initial recognition, the investment properties are stated at cost less accumulated depreciation and any accumulated impairment losses.

Freehold land is not depreciated. Depreciation on buildings is calculated using the straight-line method to allocate the depreciable amounts over the estimated useful lives. The principal annual depreciation rate of buildings is 2%.

6. INVESTMENT PROPERTIES (CONT'D)

The fair values of the investment properties are within level 2 of the fair value hierarchy. They are arrived at by reference to market evidence of transaction prices for similar properties. The most significant input into this valuation approach is the price per square foot of comparable properties. Adjustments are then made for differences in location, size, available facilities, market conditions and other factors to arrive at the fair value. At the end of the reporting period, the fair value of investment properties is approximately RM3,121,393.

巴生中华总商會
2025 年常年会员大会
会长拿督陈杰辉致词稿
14-06-2025

各位董事、商家会员们，媒体朋友们

大家早上好!很高兴见了朋友，希望大家都平安，健康。

尊敬的各位会员，朋友们：

大家上午好！

首先，我谨代表巴生中华总商会向在座每一位莅临出席本会 2025 年常年会员大会的会员商家们，致于最诚挚的谢意与敬意。

巴生中总自 1946 年成立以来，始终秉持“团结商界、服务社会、促进经济”的宗旨，走过了将近 **80 载风雨岁月**。今年是我们第 79 周年，明年我们将迈入 **80 周年钻石庆典的重要时刻**。这是巴生中总发展历程中的一个重要里程碑，我们将筹划一系列具有历史意义的庆典活动，以表彰前贤的贡献，也激励新一代商界力量的延续。我们诚邀各位届时踊跃参与、共襄盛举。

一、过去一年的重点成果

过去一年，尽管国内外经济局势复杂多变，我们巴生中总秉持稳中求进的精神，推动多项实质性的改革与建设项目，具体成果如下：

■ **绿色节能转型**：我们善用太阳能与能源管理系统，成功将本会大厦的电费账单压至**接近“净零”开销**，实现可持续发展与成本节省的双赢目标。

■ **历史文化建设**：我们启动了中总历史走廊（History Gallery）计划，整理并展出会务发展的重要文献、照片与珍贵史料，向会员及年轻一代传承中总近 80 年的辉煌与精神。

■ **商会治理改革**：持续推动**电子化管理系统**，包括线上报名、电子通告、活动追踪与数据整理，大幅提升行政效率与会员互动。

有关过去一年的各项会务与活动，将由本会秘书长随后向大家做详细汇报。

二、当前所面临的挑战与应对建议

2024 年以来，全球经济形势充满挑战，本地商界也承受着多方面的压力。我们总结出以下四大主要挑战，并提出具体建议：

挑战一：全球贸易局势动荡

美国近期针对中国等国家加征新一轮关税，引发新一波的贸易保护主义浪潮，造成**全球贸易萎缩与高度不确定性**。这一趋势可能导致：

- 国际市场竞争日趋激烈，本地企业出口空间受压；
- 部分国家或企业将大量廉价产品倾销至我国市场，冲击本地制造业与零售商；
- 虽然短期内消费者可能受益于低价进口品，但从长远来看，将对国家经济发展、企业成长及就业市场造成负面影响。

◆ 因此，我们呼吁政府：

- **加强监管与执法力度**，严防不公平的倾销行为；
- **杜绝原产地证明（CO）的滥用**，维护合法贸易秩序；
- **推动外资企业提高本地采购与使用本地原材料的比例**，以带动本地产业链的成长与韧性。

挑战二：非法外籍商业活动冲击本地商家

近年来，部分外籍人士在未持有合法工作准证或营业执照的情况下，在我国从事各类商业活动。这类非法营运行为已造成市场价格混乱、扰乱行业秩序，严重打击本地特别是中小企业的生存空间，构成不公平竞争。

此外，我国对外国人在马来西亚设立公司的政策门槛过低，目前只需缴足RM1资本、拥有一位居住在马的董事及一位股东（可为外资），便能注册成立100%外资拥有的私人有限公司，形同“无门槛入市”，使部分外国人得以规避监管、钻制度漏洞及灰色地毯。

我们亦观察到，自边境放宽后，部分外籍人士通过短期入境的方式，在马来西亚从事未注册或不合规的工作与服务项目，以超低价策略抢占市场，对本地合法商家造成严重冲击。

◆ 有鉴于此，我们呼吁政府：

1. 加强执法力度：

由国内贸易及生活成本部（KPDN）、移民局及警方等相关机构联合展开定期抽查，严力执法，确保所有营运者合法持有营业执照与工作准证。

2. 完善法律机制，堵住制度漏洞：

尽速修订《旅游业法令》与《公司法令》，针对不同行业设立更具针对性的营运与设立门槛，如：

- 提高外资公司最低缴足资本至 **RM500,000**;
- 限制特定行业的外资持股比例;
- 强制落实本地合资与产业购置资格限制;
以强化外国人在马设立公司的筛选机制, 防止滥用政策与资源外流。

3. 加重违规惩罚:

对未遵守我国法律法规的企业, 应施以更高额罚款及更严厉的行政处罚, 遏制非法营运行为的蔓延。

4. 在吸引外资同时照顾本地中小企业:

制定相关配套政策, 推动产业链整合、技术与知识转移, 协助本地企业提升竞争力与参与国际合作的能力。

挑战三: 现行 SST 制度效率不足

销售与服务税 (SST) 覆盖范围不全面、征税重复、缺乏透明度, 从而增加企业行政负担, 也无法有效拓宽国家税务。

◆ 本会立场:

- 希望政府在适当时机重启更有效率、更系统化、更透明化的**消费税 (GST) 制度**;
- 强调逐步推行、加强沟通、确保透明, 以减低对中小企业的冲击。

挑战四: 营运成本持续上涨

我们注意到今年下半年起, 多项成本增加因素将陆续实施, 包括:

- 电费调涨 (7 月起) ;
- 外劳分层式征税 (Multi-Tier Levy System) ;
- SST 扩大至更多服务类别;
- 汽油补贴逐步合理化。

这些措施将直接增加企业营运成本，最终转嫁至消费者，造成恶劣的**通货膨胀，加重民生负担**。

◆ 建议政府：

- 适时延缓部分政策的执行；
- 实施前应充分与工商界沟通协调；
- 提供过渡期或津贴，协助企业适应转型。

三、可把握的机会与建议

在挑战之外，我们也看到不少值得抓紧的契机，以下是四大商机方向：

机遇一：出口替代效应凸显，马来西亚迎来新出口窗口

中美贸易摩擦不断升级，美国对中国商品加征新一轮关税，导致不少美商与国际买家开始寻求替代供应国。马来西亚因享有相对较低的关税待遇与较稳定的营商环境，正处于关键“替代性出口”的战略位置。

■ 我们中小企业必须把握这一契机，**积极开拓海外市场，尤其是美国市场**，提升出口规模。特别是在以下具备竞争优势的产业：

- **电子与电器 (E&E)**，如半导体、自动化零组件；
- **家具与家居产品**，尤其是环保认证与定制化设计；
- **医药保健品与原料药制造**；
- **机械设备与精密零件**，配合工业 4.0 需求。

此趋势不但有助于缓解国内市场竞争压力，也将为本地制造业与中小型出口企业带来新的市场及成长空间。

机遇二：高质量外资带来合作与升级机会

过去一年，马来西亚持续吸引一批以**高附加价值、高科技导向**为目标的外资项目，涵盖晶片制造、数据中心、绿色能源、精密工程等领域。这些外资不再只是单纯设厂，而是更重视**本地技术转移、人才培养与产业协同**等等。

■ 本地中小企业应主动对接这类外资，探讨多项合作模式：

- **合资经营 (Joint Venture)** ；
- **代工生产 (OEM / ODM)** ；
- **技术授权与双向培训**。

我们要鼓励会员勇于从“服务外资”迈向“合作外资”，借助其资本、科技与全球网络，带动本地企业升级、转型与国际化。

机遇三：房地产与旅游业同步复苏

It is a great pleasure to see all of you here today. I hope this message finds everyone in good health and high spirits.

Dear Members and Friends,

First of all, on behalf of the Klang Chinese Chamber of Commerce and Industry, I would like to extend our sincerest gratitude and appreciation to all member businesses present here today for attending the 2025 Annual General Meeting.

Since its establishment in 1946, the Klang Chinese Chamber of Commerce and Industry has always upheld the mission of “uniting the business community, serving society, and promoting economic development.” Over the years, we have journeyed through nearly 80 years of growth and challenges. This year marks our 79th anniversary, and next year we will enter the significant milestone of our 80th Anniversary. This will be an important milestone in the history of our Chamber’s development. We will be planning a series of meaningful commemorative events to honor the contributions of our predecessors and to inspire the continuation of a new generation of business leaders. We sincerely invite all of you to participate actively and join us in celebrating this special occasion.

1. Our Efforts and Achievements Over the Past Year

Over the past year, despite the complex and ever-changing domestic and international economic landscape, the Klang Chinese Chamber of Commerce and Industry has continued to move forward with steady progress. We have implemented several meaningful reforms and development initiatives.

The key achievements are as follows:

I. Green Energy Transition

By effectively utilizing solar energy and implementing an energy management system, we have successfully reduced the electricity expenses of our Chamber building to nearly “net-zero,” achieving a win-win outcome of sustainability and cost savings.

II. Historical and Cultural Development

We have launched the **History Gallery** project, which compiles and showcases important documents, photographs, and valuable historical materials related to the Chamber’s development. This initiative aims to preserve and pass on nearly 80 years of the Chamber’s achievements and spirit to our members and the younger generation.

III. Chamber Governance Reform

We continue to promote digital management systems, including online registrations, electronic announcements, event tracking, and data organization, significantly improving administrative efficiency and enhancing engagement with our members.

2. Challenges and Opportunities Ahead

Since 2024, the global economic landscape has been increasingly challenging, and the local business community has been facing pressure from multiple fronts. We have identified four major challenges and put forward the following recommendations:

Challenges 1: Volatility in Global Trade

In recent times, the United States has imposed a new round of tariffs on countries such as China, triggering another wave of trade

protectionism. This development has resulted in a contraction in global trade and heightened uncertainty. This trend may lead to:

- Increasingly intense competition in international markets, placing pressure on export opportunities for local businesses;
- Certain countries or companies dumping large volumes of low-priced products into our market, impacting local manufacturers and retailers;
- While consumers may benefit from lower-priced imports in the short term, in the long run it could negatively affect national economic development, business growth, and employment.

Therefore, we urge the government to:

- Strengthen monitoring and enforcement to prevent unfair dumping practices;
- Prevent the misuse of Certificates of Origin (CO) and safeguard legitimate trade practices;
- Encourage foreign companies to increase local procurement and the use of local raw materials in order to strengthen the growth and resilience of local supply chains.

Challenges 2: Illegal Foreign Business Activities Affecting Local Business

In recent years, some foreign individuals have been engaging in various business activities in Malaysia without valid work permits or business licenses. These illegal operations have disrupted market pricing, disturbed industry order, and severely affected the survival of local businesses, particularly small and medium enterprises, creating unfair competition.

In addition, the threshold for foreigners to establish companies in Malaysia is currently very low. With a paid-up capital of only RM1, one locally resident director, and one shareholder (who may be foreign), a company can be registered as a 100% foreign-owned private limited company. This effectively creates a “no-barrier market entry,” enabling some foreign individuals to bypass regulations and exploit loopholes in the system.

We have also observed that since border restrictions were relaxed, some foreigners have entered Malaysia on short-term visits and engaged in unregistered or non-compliant services and work activities, using extremely low pricing strategies to capture market share, which severely impacts legitimate local businesses.

In view of this, we urge the government to:

1. Strengthen enforcement:

Relevant authorities such as the Ministry of Domestic Trade and Cost of Living (KPDN), the Immigration Department, and the police should conduct regular joint inspections and enforce strict action to ensure that all business operators possess valid business licenses and work permits.

2. Improve the legal framework and close policy loopholes:

Amend the Tourism Industry Act and the Companies Act as soon as possible to establish more targeted requirements for business operations and company formation across different industries, such as:

- Increasing the minimum paid-up capital for foreign-owned companies to RM500,000;
- Limiting foreign ownership in certain industries;

- Requiring local joint ventures and imposing restrictions on business licensing or property ownership eligibility.

These measures will strengthen the screening mechanism for foreigners establishing companies in Malaysia and prevent the abuse of policies and the outflow of resources.

3. Impose stricter penalties for violations:

Businesses that fail to comply with Malaysian laws and regulations should face heavier fines and stricter administrative penalties to deter illegal operations.

4. Balance foreign investment with the protection of local SMEs:

While attracting foreign investment, the government should also introduce supportive policies to promote industrial integration, technology and knowledge transfer, and help local enterprises enhance their competitiveness and ability to participate in international cooperation.

Challenges 3: Inefficiencies in the Current SST System

The current Sales and Services Tax (SST) system has limited coverage, involves elements of double taxation, and lacks transparency. As a result, it increases administrative burdens on businesses while failing to effectively broaden the national tax base.

Our position:

- We hope the government will consider reintroducing a more efficient, systematic, and transparent Goods and Services Tax (GST) system at an appropriate time;

- Implementation should be gradual, accompanied by strong communication and transparency to minimize the impact on SMEs.

Challenges 4: Rising Operating Costs

From the second half of this year onwards, several cost increases will take effect, including:

- Electricity tariff adjustments (starting in July);
- The **Multi-Tier Levy System** for foreign workers;
- Expansion of SST to more service categories;
- Gradual rationalization of petrol subsidies.

These measures will directly increase business operating costs and may eventually be passed on to consumers, potentially triggering inflationary pressures and increasing the cost of living.

We therefore suggest that the government:

- Consider postponing the implementation of certain policies where appropriate;
- Conduct sufficient consultation and coordination with the business community before implementation;
- Provide transition periods or targeted subsidies to help businesses adapt to these changes.

3. Opportunities

Beyond the challenges, we also see several opportunities worth capitalizing on. The following are four key areas of opportunity:

Opportunity 1: Export Substitution Effect – A New Export Window for Malaysia

As trade tensions between the United States and China continue to escalate, the U.S. has imposed another round of tariffs on Chinese goods. As a result, many American companies and international buyers are seeking alternative supply sources. Malaysia, with its relatively lower tariff exposure and stable business environment, is now in a strategic position as an alternative export base.

Our SMEs must seize this opportunity to actively expand into overseas markets, particularly the U.S. market, and increase export capacity. Industries with strong competitive advantages include:

- Electrical and Electronics (E&E), such as semiconductors and automation components;
- Furniture and home products, especially those with eco-certification and customized designs;
- Pharmaceutical and healthcare products, including active pharmaceutical ingredient (API) manufacturing;
- Machinery and precision engineering components that support Industry 4.0 development.

This trend can help relieve domestic market competition while opening new markets and growth opportunities for local manufacturers and export-oriented SMEs.

Opportunity 2: High-Quality Foreign Investment Bringing Cooperation and Upgrading Opportunities

Over the past year, Malaysia has continued to attract a number of

high-value, technology-driven foreign investment projects in sectors such as semiconductor manufacturing, data centers, green energy, and precision engineering. These investors are no longer merely setting up factories but are increasingly focused on technology transfer, talent development, and industrial collaboration.

Local SMEs should actively engage with these investors and explore various forms of collaboration, such as:

- Joint ventures (JV);
- Contract manufacturing (OEM / ODM);
- Technology licensing and bilateral training programs.

We encourage our members to move beyond simply “servicing foreign investors” and instead pursue meaningful partnerships with them. By leveraging their capital, technology, and global networks, local businesses can accelerate upgrading, transformation, and international expansion.

Opportunity 3: Recovery of the Property and Tourism Sectors

With the gradual return of international tourists and the entry of multinational companies bringing in professional and technical talent, the local property market and service industries are showing strong signs of recovery. Demand for industrial land, commercial shop lots, and serviced apartments has increased significantly. Tourism-related sectors such as retail, food and beverage, hospitality, and transportation are also recovering.

The local business community should seize this momentum by:

- Optimizing asset allocation and investment strategies, focusing on regional economic growth areas such as the Klang Valley Economic Corridor and the Johor–Singapore Economic Zone;
- Enhancing service quality and customer experience, especially for tourism, hospitality, and cultural-related businesses;
- Emphasizing digital management systems and online marketing to meet the expectations of modern consumers and international markets.

Opportunity 4: The New Industrial Master Plan 2030 (NIMP 2030) Driving Industrial Upgrading

Last year, the government launched the New Industrial Master Plan 2030 (NIMP 2030), which outlines development strategies across 21 key industries, including aerospace, automotive, digital technology, green energy, and electrical and electronics (E&E). The goal is to guide Malaysia toward a future economic structure that is high-tech, high-income, and low-carbon.

Businesses must understand this broader direction and align with national policies to drive transformation and upgrading, including:

- Adopting smart manufacturing and automated production lines;
- Developing green energy solutions and carbon management mechanisms;
- Investing in employee reskilling and the development of technical talent;
- Participating in government support programs and industry collaboration initiatives, such as NIMP-related funds and digital transformation grants.

The Chamber will also actively convey the concerns and needs of the business community to the government, while assisting our members in accessing policy resources and aligning with the future direction of the economy.

4, Conclusion & Appreciation

In the face of challenges, we cannot simply wait for the government to solve them for us. When opportunities arise, we must take the initiative to act. For SMEs especially, we must understand that only through change can we survive, and only through progress can we continue to grow.

I would like to make the following appeals:

- Boldly explore export markets and avoid relying on a single source of income;
- Actively adopt digitalization and automation in business operations to improve efficiency and competitiveness;
- Make full use of government support platforms and policies, such as SME Corp Malaysia, the Malaysia Digital Economy Corporation (MDEC), and the Malaysian Investment Development Authority (MIDA), to obtain information, assistance, or access to low-interest financing.

The Klang Chinese Chamber of Commerce and Industry will also continue to serve as a bridge between businesses and the government, striving to safeguard members' interests, share timely information, and create platforms for business opportunities.

Let us move forward together, create new opportunities, and celebrate

the Chamber' s glorious 80th Anniversary in the near future.

I wish everyone good health, happiness in your families, and continued success.

Thank you.
