A delegation from the Brand Industry Service Bureau of Xunhua County, Qinghai Province visited the Klang Chinese Chamber of Commerce and Industry (KCCCI) on Monday, 22 June 2026, where both sides held in-depth discussions on brand development, market expansion, and Malaysia-China economic and trade cooperation.

During the meeting, President Dato' Jeffery Tan highlighted Klang's economic strengths, emphasizing that as one of Malaysia's major port cities, Klang offers a well-developed logistics network, a mature business environment, and a strategic location, making it an ideal gateway for businesses seeking to expand into the Southeast Asian market. He also reaffirmed the Chamber's commitment to serving as a bridge by providing business matching opportunities, investment advisory services, and resource support for Qinghai enterprises interested in establishing a presence in Malaysia.

The President further shared Malaysia's competitive advantages in the halal industry and Muslim-friendly tourism, noting that the country serves as an

important gateway to the global halal market. The delegation introduced Xunhua County's distinctive local economy, with the Lanzhou hand-pulled noodle industry as one of its flagship sectors. They noted that while local enterprises have already established a foothold in Malaysia, they continue to face challenges in brand development due to limited branding platforms, strategic planning, and promotional resources. They expressed hope that, through the Chamber's platform and expertise, local businesses could strengthen their brand-building efforts, accelerate business transformation, and enhance their market influence.

Both parties exchanged insights on topics including brand shaping, market positioning, business model optimization, and resource integration. They expressed a shared vision to further strengthen communication and cooperation in the future, aiming to drive Qinghai's specialty brands into the Malaysian market, foster corporate exchanges between both regions, and achieve mutual benefits and win-win outcomes.
