

贸工部(MITI)正在研拟让某些领域在行动管制期间可运作。 MITI is studying the possibility of allowing certain industries to operate during the MCO period.

Latest update on MITI Application:

For information, the previous approvals are still valid, however companies are encouraged to apply with CIMS 2.0 to get the new approval letter with QR code.

Nevertheless, companies with previous approval need to apply again if:

1. Change in work force list (eg: replace the approved 50% with the another list of 50% workers)

2. Increase in work force (eg: approved for 30% workers, now apply for 70% workers)

Pls refer to the above document, this is the info needed. Pls be patient while the system access is being rectified. Thank you!
