The objective of the session is to match up with interested entrepreneurs with researchers on the commercialisation of potential and viable projects and the utilization of existing R&D facilities.

The ITI has identified some projects that are suitable and viable as well as topics of the interest to the SMEs. Initial list includes:

1. Technology Park Malaysia's (TPM) services and facilities
2. Research and Development in Producing Ferric Chloride Coagulant from Spent Pickle Liquor (Factory Waste)

We cordially invite interested entrepreneurs to attend the above Business Group Session. This
