This is a survey jointly conducted by the Associated Chinese Chambers of Commerce and Industry of Malaysia (ACCCIM) and ACCCIM's Socio-Economic Research Centre (SERC) on Malaysia's business and economic conditions in the second half-year of 2020 and prospects for the first half-year of 2021 and beyond.

The survey would provide a platform for ACCCIM to gather relevant views and inputs for submission to the Government. It also serves as a key source of reference for the Malaysian business community, domestic and foreign investors in assisting their investment plan in Malaysia.

Both ACCCIM and SERC will compile and analyze the survey results. The completed survey report will be published and announce officially.

We welcome and encourage all businesses to participate in the questionnaire via the following link:
